

Biomedical Engineering Industrial Advisory Board

To help ensure that industry needs are satisfied through the proper training and education of biomedical engineering students, an annual meeting is held with the members of the advisory board. The board is comprised of constituents from a variety of industry sectors and includes some RIT alumni as well.

Jonathan Bress, MD

Nephrologist, Rochester Regional Health

Megan Chapman

Quality Engineer, Therakos

Jaimie Cole

Vice President of Global Technology Center, iCardiac Technologies

Jean-Philippe Couderc Ph.D.

Chief Technology Officer, iCardiac Technologies

Albert Di Rienzo

President and CEO, Radicle Innovation, LLC

Thomas Gramlich

Quality Systems Manager, LoneStar Heart

Josa Hanzlik

Scientific Affairs Manager, Centinel Spine

David Heavner

Chief System Architect, Ortho Clinical Diagnostics

Filipp Ignatovich

Chief Technology Officer, Lumetrics

Lalit K. Mestha

Principal Engineer, GE Global Research Center

Ruth Ochia

Associate Professor of Bioengineering, Temple University

Scott Reardon, PE

President and Chief Technology Officer, d3 Engineering

Dan Recinella

Vice President of Research and Development, Venti Medical

Karl Q. Schwarz, MD

Professor of Medicine and Director Echocardiography Laboratory, University of Rochester
Medical Center

Mike Springer

Director of Operations and Entrepreneurship, The Jacobs Institute

Liz Stoyan

Research Associate, United Therapeutics

Dan Wellington

Principal Consultant, 4D Concepts
