

Study Abroad For NTID Students

4 Reasons NTID students should study abroad

Expand your cultural awareness and **gain valuable personal and professional skills** that will enhance your academic path, career goals and world view.

Explore **different ways of thinking, communicating, and learning** on a global scale.

Gain increased self-confidence and the ability to be more flexible, adaptable and open minded.

Experience the **unexpected**, take on new challenges and **add a global perspective to what you learn in the classroom**.

Getting Started

1. Learn more at: studyabroad.rit.edu
2. Meet with your **academic advisor** to discuss timing and coursework.
3. Explore programs in the Compass database: rit.edu/global/compass-search-programs-apply
4. Make an appointment with a study abroad advisor: www.rit.edu/global/advisormeeting. Please reserve Access Services support for your meeting if needed.

Things to Know

Access Services

Support is available as funds allow for RIT Global Campus, Faculty-Led, and some affiliate programs. Contact **Angela Hauser** at abhdis@ntid.rit.edu early in your study abroad planning to inquire about availability of access services.

When To Go

Meet with your Academic Advisor to determine the timing and coursework that will work best for you.

VR Support

Vocational Rehabilitation (VR) services may provide financial assistance to NTID students studying abroad. Ask your VR counselor to determine if assistance is available.

Funding

Financial aid may apply towards some program costs (if you take between 6-12 credits abroad). Study abroad scholarships are also available through RIT Education Abroad, NTID and national scholarships. Ask your study abroad advisor for more information or visit: www.rit.edu/global/funding-study-abroad.

Geraldine Dang
3D Digital Design
Studied in Japan & Singapore

"Growing up watching and reading anime, I had always wanted to visit Japan. I was in awe in Tokyo, seeing how the entire city displays technology and it inspired me to study digital media, and especially 3D design."
