The Students of the Rochester Athenaeum

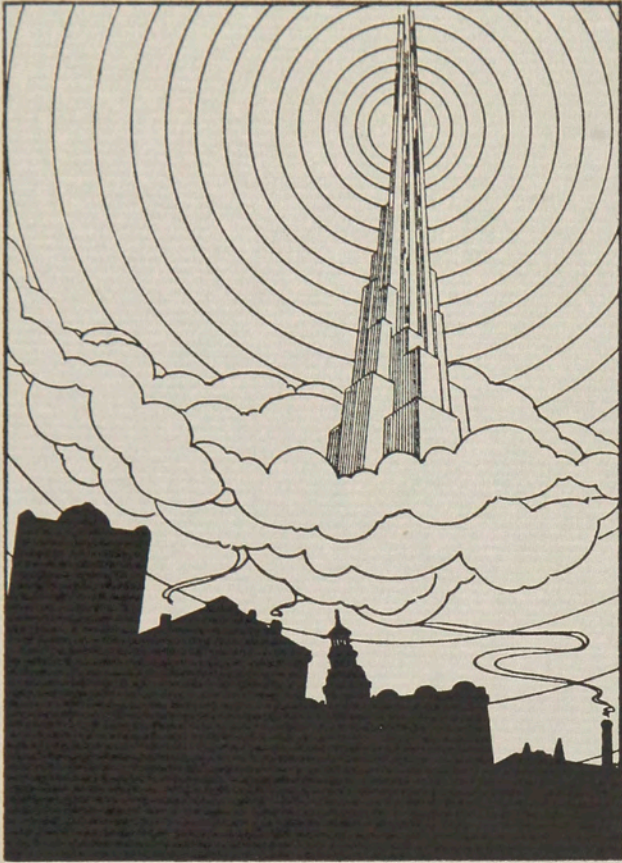

and Mechanics Institute

PRESENT THIS

RAMIKIN

VOLUME XXI

FOREWORD

This, the twenty-first volume of the Ramikin is issued with the sincere hope that it will fulfill the traditional function of recording accurately a year of Mechanics Institute life.

However, the rapid development of the present leaves but little time to stand and marvel at man's past achievements. How much more wonderful to contemplate the possibilities of future achievements!

It is to the Mechanics of the future, as we would have it, a success and an inspiration, that we present this book.

DEDICATION

In the past it has been the custom of the Ramikin to honor some individual in our midst who has aroused the admiration of the entire student group.

This year, with the vision of a new Mechanics arising before our eyes, we feel that it is fitting to issue a forecast to the success of a new enterprize.

To posterity and the success of the future we dedicate this book. May it bring honor and renown to our Alma Mater.

ALMA MATER

O, Alma Mater, day by day
We strive to hold thine honor bright
And pledge anew our loyalty,
Defend thy name with all our might.

We rise in gratitude to thee
For sweet the message thou hast taught,
A message crowned with love and pow'r,
Resplendent through thy service wrought.

The noble founders heard the cry
That surges o'er the world today,
Their dauntless spirit sends us forth,
That we their precepts may obey.

School ties will strengthen as you go on obeying sincerely
your own best conscience.

John A. Randall

F A C U L T Y

F A C U L T Y

The opening of this school year brought many students face to face with some very serious problems. For a few, the difficulties to be faced were too great. For most of you, these same difficulties have provided an added stimulus to complete your preparation.

To those of you who have persevered, this year has contributed greatly to your preparation. May you have added confidence to face the future.

Director, School of Industrial Arts

FACULTY, SCHOOL OF INDUSTRIAL ARTS

CARLTON W. ALLEN

Instructor in Social Science

Syracuse and Bucknell University. Superintendent, Oneida Community, 1920-29. Industrial Engineering, 1929-31. Mechanics Institute, 1931.

GEORGE ESTES BARTON

Instructor in Philosophy, Social Science, Education

A.B., Harvard College, Cambridge, Mass. 1925. A.M., University of Pennsylvania, Philadelphia, Pennsylvania, 1930. Certificat, Institute De Touraine, Tours, Indre-et-Loire, France. University of Paris, Paris, France, 1928-29. Johns Hopkins, Baltimore, Maryland, Summer 1931. Instructor in Middletown Township High School, Leonardo, Manmouth County, N. J., 1925-27; 1929-30. Instructor in Chateau De Bures, Par Villennes, Seine-et-Oise, France, 1927-28.

RALPH H. BRADEN

Ohio Wesleyan University, 1907-09. Baldwin-Wallace College, B.S., 1912. University of Chicago, Ill., M.S., 1916. Chief Chemist and Assistant Superintendent Ford Manufacturing Co., St. Louis, 1916-18. Chemical War Service, U. S. Army, 1918-19. Instructor Quantitative Analysis, Pennsylvania State College, 1919. Research Chemist and Plant Engineering DuPont Co., Wilmington, Delaware, 1919-22. Mechanics Institute, 1922.

LOUIS N. BEREND

Instructor in Mathematics and Electricity

Mechanics Institute, 1926. Operating Engineer, Rochester, Gas & Electric Co., 1926-29. Switchboard Engineer, General Railway Signal Co., 1929-31.

HAROLD J. BRODIE

Instructor of Drawing and Mechanisms and Blue Print Reading

Mechanics Institute Teacher's Training Course 1917. Drafting Room, Symington Plant, Summer 1917. Drafting Room, Bausch & Lomb Optical Co., Summers 1914-16. Instructor of Machine and Architectural Drawing, Elmira Vocational School, 1917-18. Instructor of Aerial Gunnery and Drafting in U. S. Navy, Great Lakes Station, 1918-19. Drafting Room, M. D. Knowlton Co., 1919. Instructor of Manual Training and Director of Educational Department, Rochester Y.M.C.A. Summer Camp 1924-28. Mechanics Institute, 1919. Director of Arts and Crafts Department, N. Y. State Y.M.C.A. Camp Summers 1929-31.

WILLIAM A. CLARK

Instructor in Construction Supervision and Consulting Engineer

Massachusetts Institute of Technology, B.S., 1917. University of New York License 1929. Mechanics Institute, 1930.

F A C U L T Y

WALTER CRILEY

Instructor in Mathematics and Electricity

University of Pennsylvania, B.S. in E.E., 1921. Testing Engineer, American Telephone and Telegraph Co., 1921-23. Instructor in Electrical Engineering; Georgia School of Technology, 1922-23. Instructor in Electrical Engineering; University of Pennsylvania, 1923-25. Cost Engineer, Pennsylvania Power & Light Co., 1925-30. Mechanics Institute, 1930.

WARREN C. DAVIS

Instructor of Social Science

Graduated from Albion State Normal College; Albion, Idaho, 1925. A.B. Degree in Education; Gooding College, Wesleyan, Idaho, 1925. Practice Teaching at Albion State Normal College for 1 year. Department of Philosophy, Summer Session at Gooding College. Mechanics Institute, 1929. Extension work from University of Rochester 1930-31-32. Summer School at Columbia University 1930.

CYRIL DONALDSON

Instructor in Mechanics
Mechanical Engineer

University of Texas, B.S. 1926. Apprentice Machinist, Napier Motor Corporation, Acton, England 1912-14. Airplane Engine Mechanic, Royal Flying Corps and Royal Air Service, 1914-18. Experimental Laboratories Mechanic, Northway Motor & Manufacturing Co., Detroit, Michigan 1918-20. Automatic Service Work, White Truck Co. 1921-22. Diesel Engine Erector, Tester and Designer, Delavergne Machine Co. New York City 1926-28. Mechanics Institute, 1928.

MARK ELLINGSON

Instructor of Economics
Supervisor of Photographic Technology

Associate in Education, University of Idaho, 1924. Gooding College, B.A., 1926. Graduate Work, University of Chicago. University of Rochester. New York University and Ohio State University. M. A. University of Rochester 1930. Varsity Wrestling Coach, Mechanics Institute, 1926.

FREDERICK H. EVANS

Supervisor of Co-operative Mechanical Course B.M.E. Kentucky State University, 1903. M.E. Kentucky State University, 1906. Designer Ironton Engine Co., 1903-04. Instructor in Engineering and Superintendent of Vocational Courses, Bradley Polytechnical Institute, Peoria, Illinois, 1904-16. Dean of College of Industrial Science, Toledo University, 1916-18. Chief Engineer, Ransom & Randolph Co., Toledo, Ohio, 1919-20. Technical Expert with General Staff, U. S. Army, 1918-22. Chief of Training, Central Office, Washington, D. C. U. S. Veterans Bureau, 1922-23. Mechanics Institute, 1923.

WARREN H. FINLEY

Part Time Instructor in Woodworking
Superintendent of Architectural Woodworking
Industry
Mechanics Institute, 1929.

MARY E. GILLARD

Instructor in Chemistry
Columbia University, 1906-10. University of Rochester, Extension Courses, 1916, 1919, 1921, 1927. Mechanics Institute, 1904.

J. WARREN GILLEN

Instructor in Mechanics and Heat
Tuft's College, B.S., M.E., 1930. Hudson Motor Car Co., 1927-30. Highway Engineer, Commonwealth of Massachusetts, 1930. Mechanics Institute, 1930-31.

J. HANES GODFREY

Instructor in Mathematics and Mechanics
Cornell University M.E., 1895. Assistant Engineer in Sugar Mill, Hawaiian Islands. Foreman in Engineering and Operating Department, Pressed Steel Car Co., Pittsburgh, Pennsylvania. General Master Mechanic, American Brake Shoe & Foundry Co., Mohawk, New Jersey. Teacher in Mathematics in Trumansburg, H. S. Mechanics Institute, 1926.

SHERMAN B. HAGBERG

Instructor in Machine Shop
Supervisor of Athletics

Apprentice, Curtis Machine Corp., Jamestown, New York, 1912-15. Union Tool Co., Rochester, 1916-17. Instructor U. S. Army, 1918. Vocational Teaching Certificate, Oswego Normal School, 1924-25. University of Rochester Extension Courses, 1926-31. Mechanics Institute, 1918. New York University Summer School, 1930.

JANETTE T. HARRINGTON

Instructor in English
Publicity Director

Bachelor of Science in Journalism degree from Ohio State University. Under Graduate honors include; Phi Beta Kappa, Sigma Delta Chi scholarship key, Journalism key. Previous business experience—One summer as Society Editor of the Newark Advocate, Newark, Ohio.

DR. EDWARD PARK HARRIS

Instructor in Chemistry
Amherst College, 1885, B.A. University of Gottingen, Germany, 1888, Ph.D. Instructor in Chemistry, Amherst. Head of Science Department, Adjutant, Pennsylvania Military College. Established and Conducted The Harris Laboratory. Chemical Analysis and Consultation, New York Aetna Chemical Co., Advisory Staff. St. Lawrence University, 1921-29, Chemistry Staff. Mechanics Institute, 1929.

F A C U L T Y

ALFRED A. JOHNS

Director of School of Industrial Arts

Massachusetts Institute of Technology Extension, 1919. University of Rochester, A.B., 1915. Mechanics Institute, 1919.

EARL C. KARKER

Head of Electrical Department

University of Rochester, B.S., 1917. University of Rochester, M.S., 1923. Educational Director, General Railway Signal Co., 1926-27. Consulting Engineer, Precise Products Inc. Mechanics Institute, 1920. Member of American Institute of Electrical Engineers, Rochester Engineering Society, Institute of Radio Eng.

EDWARD H. LANG

Instructor in Steam and Power Plant

Cornell University, M.E., 1925. Assistant to Chief Engineer, E. W. Bliss Co., Brooklyn, New York, 1926-27. Mechanics Institute, 1927.

ALVIN F. LUCKETT

Instructor in Mathematics and Electricity

Mechanics Institute, 1927. Operating Engineering, Rochester Gas and Electric Co., 1927-30. General Electric Test Course, General Electric Co., Schenectady, 1930.

ELVA LYON

Research Assistant in Curriculum Design Work. A.B. Otterbein College, Westerville, Ohio. M.A. Columbia University. Additional Graduate Study at University of Chicago and Ohio State University. Assistant Dean of Women and Instruction in English, Otterbein College, 1921-25. Bureau of Educational Research, Columbia University, 1927-29. Bureau of Educational Research, Ohio State University, 1929-31. Free-lance Editorial Work. Member of English Graduate Union of Columbia University.

LEONARD A. MARRIOTT

Teacher of Mechanics and Mathematics

University of Akron; Akron, Ohio, M. E., 1929. Goodyear Rubber Co., Akron, Ohio.

HERMAN MARTIN

Director of Evening School
Supervisor of Co-operative Course
in Construction

Mechanics Institute Mechanical Course, Diploma, 1904. University of Rochester, Extension Work. Cornell University, Extension Work. Draftsman and Designer, Gleason Works and Stromberg-Carlson Co., 1903-06. Mechanics Institute, 1904.

ROY V. SWAIN

Registrar and Regional Supervisor

Coes Academy, Northwood, New Hampshire, 1902. New Hampshire University, Durham, New Hampshire, in Mechanical Engineering, 1906. B.S. Instructor Powhatan College, Charlestown, West Virginia. Instructor Prince Frederick College, Frederick, Maryland. Instructor, Coes Academy, Northwood, New Hampshire. Instructor, High School, Portsmouth, New Hampshire. Principal, High School, Upton, Massachusetts. Instructor, State University Preparatory, Tonkawa, Oklahoma. Dean, Y.M.C.A. School of Technology, Buffalo, New York, United Y.M.C.A. Schools, New York City. Designing Engineer and Charge of Production, Begg's Motor Car Co., Kansas City. Mechanics Institute, 1919.

VERNON SWAIN

Instructor in Mathematics and Electricity
University of New Hampshire, 1931.

CALVIN C. THOMASON

Head of Department of Social Science

Whitman College, A.B., 1907. Advanced Study, University of Oregon, California, Wisconsin, Columbia. Journalism, 1907-11. Industrial Extension, 1911-15. High School Administration and Teaching, 1915-19. Army Education, 1919-22. College Teaching and Vocational Secretaryship, 1922-24. Mechanics Institute, 1924.

CLARENCE TUITES

Instructor in Mathematics, Electrical Drafting and Design

Clarkson College, B.S. in E.E., 1923-24. B.S. in E.D., 1928. Resident and Switchboard Engineer, Commonwealth Power Corporation, Jackson, Michigan, 1924-27. Mechanics Institute, 1927.

EDWARD VIRKUS

Craftsman in Architectural Woodworking
Mechanics Institute, 1929.

ROYAL WELLER

Instructor in Electrical Department

Massachusetts Institute of Technology, B.S. in E.E., 1927. Testing Department General Electric Co., Schenectady, New York. Switchboard Department Stromberg-Carlson Co., 1929. Mechanics Institute, 1928. Bausch and Lomb, 1930.

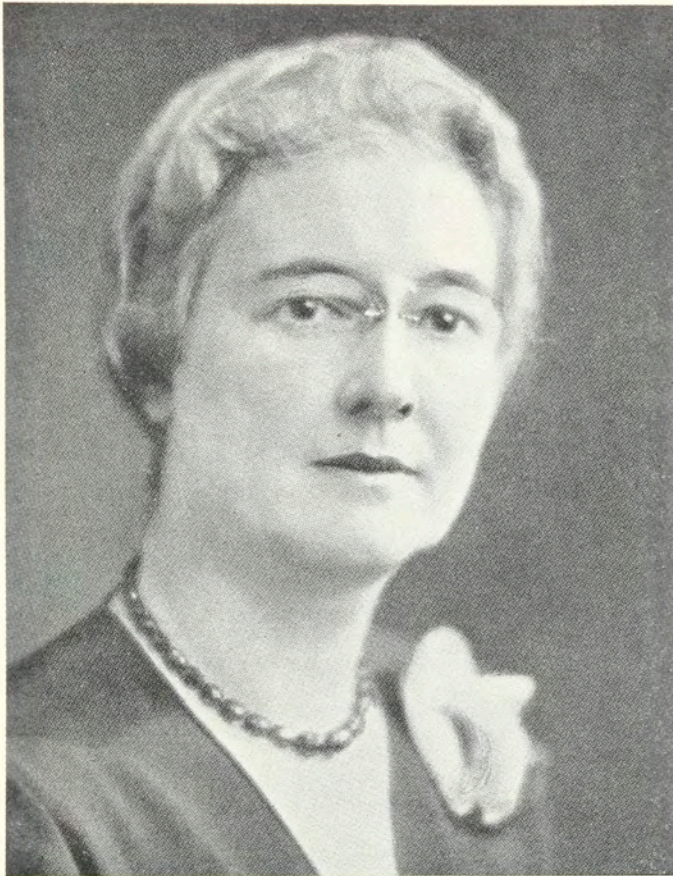

D. H. MITCHELL

Instructor in Mechanical Drawing

Graduate of Engineering School, Tuft's College, 1930. In employ of Atmospheric Nitrogen Corporation, 1930-31, as Assistant in Power Division doing Steam Power Plant Work. Mechanics Institute, 1931

(Continued on page 188)

F A C U L T Y

Young women in the food administration course, throughout the three years of co-operative training, are bending every effort toward insuring successful careers as managers in tea rooms, cafeterias or clubs and dietitians in hospitals. They know successful participation in food administration involves both high technical proficiency and a superior attitude toward life.

Our graduates succeed because of positive character combined with specially developed abilities.

Head of Department of Social Sciences

Whitman College, A.B., 1907. Advanced Study, University of Oregon, California, Wisconsin, and Columbia. Journalism, 1907-1911. Industrial Extension, 1911-1915. High School Administration and Teaching, 1915-1919. Army Education, 1919-1922. College Teaching and Vocational Secretaryship, 1922-1924. Mechanics Institute, 1924.

BERTHA THURBER

Instructor in Cafeteria Practice

Buffalo State Normal School Diploma, 1905. Mechanics Institute Normal Diploma in Domestic Science, 1912. Teachers College, Columbia University Summer School. Teacher of Home Economics, Corning Public Schools, 1905-1910. Mechanics Institute, 1912.

ELIZABETH VAN HORNE

Instructor in Chemistry and Dietetics

Teachers College, Columbia University, 1911-1928. Teachers College, Columbia University Summer Sessions, 1911, 1913, 1914, 1917, 1928. Teachers College, Columbia University, B.S., 1919, M.A., 1929. Mechanics Institute, 1911.

HELEN WERTMAN

Junior Manager of Cafeteria

Mechanics Institute, Food Administration Course Diploma, 1928-1931. Mechanics Institute, 1931.

F A C U L T Y

Two factors which the Art School seeks to emphasize in all its activities are unity and progress. The ability to select essentials makes for unity in life as well as in Art.

Unity of idea, form, color, design and technique constantly challenge the artist, and his development must be ever progressive. The School of Applied Art stresses the importance of Art to the unity and progress of the community.

Liberty Loan Painting, National Gallery, Washington, D. C.

F A C U L T Y

EVENING SCHOOL

The Mechanics Institute Evening School as old as the Institute itself, at first offered courses in mechanical, architectural, and freehand drawing, mathematics, and natural philosophy. Although the subject matter now taught is to a large extent similar to that taught during the day, certain outstanding courses, such as Industrial Management, are offered to meet the needs of special classes of students from various industrial fields. Many members of the day faculty, in addition to a number of specialists not on the day faculty, give instruction in the evening school. The same supervisory force functions in both.

Many persons employed during the day take advantage of the evening instruction offered to keep up with present progress and to prepare themselves for advancement.

F A C U L T Y

Director, Evening School

Herman Martin

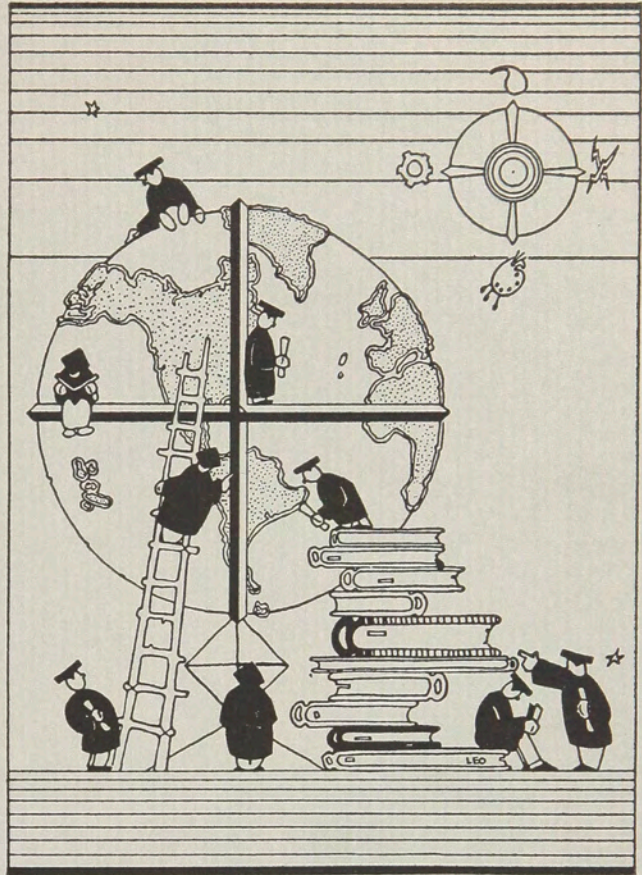

A V I S I O N

A VISION

We the class of 1932 have seen a changing world. Art, Science and Industry are moving forward. We have seen a new Mechanics arising from the old—one that is taking its place in this ever changing universe.

The potter is deftly forming his mold. The die is cast, and with our new educational system the eyes of the educational world are upon us. We leave for posterity to carry on our vision of a new Rochester Athenaeum and Mechanics Institute.

New facilities demand expansion, and with eager enthusiasm we look forward to a new organization, that may place the Institute on a level with any educational institution in the country.

ALICE CASSELMAN	Secretary
THOMAS AITCHESON	Treasurer
EDITH SOMERS	Chairman, Social Committee

With the shadow of commencement before us comes the realization that our three years at Mechanics are at an end. The years have passed quickly since the days of Freshman toques and buttons.

September 1929 found us in a maze of new faces, people and new methods of study. However, before many months had elapsed we had acclimated ourselves to our new program of living and the spring of 1930 found us as a strong and well organized group.

Our Junior year will be remembered as one of many happy and successful activities terminating with the colorful Junior Prom.

The scholastic record which we leave behind is to our credit. It has been a worthwhile adventure and one we shall be happy to recall—and the memory of our three years at Mechanics Institute will give us zeal for future accomplishments.

JUNIOR CLASS

FRANK BAILEY	President
GEORGE RIX	Vice-President
GORDON HOLCOMB	Secretary
HARRY CARLSON	Treasurer

With two years activities behind us the Junior Class looks back at two successful years, scholastically and socially. The class has been nobly represented in all of the school's varied activities. With pride we point to our outstanding Prom which will be long remembered.

Our paramount interest now lies not so much in this present glory but in the promise of a still brighter future.

FRESHMAN CLASS

September, 1931 found us, the Freshman Class, amidst new surroundings, confronted with new systems, and surrounded by new faces.

Before many months had elapsed we had acclimated ourselves to our new Alma Mater, and to our new school life.

We successfully survived the usual initiation ceremony and celebration, and look back at hazing days with perhaps a feeling of regret.

We have been represented in all school activities, in athletics, and pride ourselves on the spirit with which we have entered into the student life at the Institute.

And now we look ahead, and leave our places for next year's green men, with the hope that we may ably fill those left to us by the Junior of yesterday—and carry on in the true Mechanics Spirit the work which we have so successfully started.

The Student Council, first organized in 1915, has been composed of a faculty adviser and one representative each from the Freshman, Junior, and Senior Classes of the Schools of Industrial Arts, Applied Arts, and Home Economics.

Last year the name of this group was changed to Executive Council, and it was supplemented by one representative from each recognized school organization to form the complete Student Council.

This year the Executive Council became known as the Executive Committee, and the large council remained under the name of the Student Council.

It is the purpose of the Executive Committee to stimulate the best possible school spirit and to maintain the high standards of sportsmanship.

It is also entrusted with the upholding of the customs and traditions of the Institute. The general Student Council acts as the Students' representative in their contacts with the Faculty.

The Student Handbook, better known as the "Freshman Bible", was organized at Mechanics Institute in 1930 with the purpose of acquainting the freshmen with the school, its organization, faculty, traditions and possibilities.

It is subject to revision each year in order to meet the changing conditions that are a part of the institute.

It has been a fine publication and its services both to the freshmen and to the upper-classmen have been a consumption of a long felt need.

ART STUDENTS LEAGUE

LEO KAPLAN	President
JOSEPHINE JONES	Vice-President
RUTH VAUGHN	Secretary
BERNARD SCHAFT	Treasurer

The Art Students League began the year 1931-1932 with a membership of over seventy-five, one of the largest groups the League has had in its history.

The league is maintained in the common interests of the Students of the School of Applied Art, and members are given every opportunity of expressing themselves in their individual mediums and techniques at the Sketch Class held each Thursday evening. Prizes were awarded for the outstanding sketches and the Students in turn acted as their own models.

The Initiation, the Annual Hallowe'en Masquerade, and the Christmas Party were outstanding dates on the Social Calender. The Masquerade drew one of the largest crowds Bevier has ever seen. The activities for a year were concluded with a picnic at Powder Mill Park, on Tuesday May 17. The entire Student body and faculty of the School of Applied Art were present, and it is hoped this may become an Annual Art Student league affair.

THE GLEE CLUB

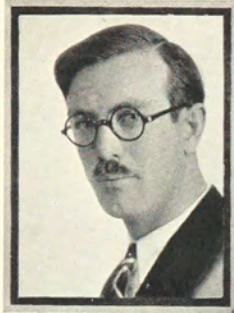

BETTY GARRITY	President	GORDON LAW
EVELYN CLARK	Vice-President	LEON PALMER
JANET BULLION	Secretary	ARTHUR WILLIAM TAFF
LOIS TERK	Treasurer	NORMAN WILCOX
GERTRUDE H. SYKES	Faculty Adviser	GEORGE E. BARTON, JR.

On October 6, 1931, the combined Glee Clubs of Mechanics Institute started the school year with an attendance of one hundred and fifty-four persons. The Club was very fortunate in maintaining the services of Mr. Casad, who led it through a very successful year, assisted by his able pianist, Mr. Bowerman. During the year, and especially before the concert, several clever schemes in the form of posters and other attractions were devised. Much credit for these is due Mr. Barton and Miss Sykes, the faculty advisers of the Club.

The concert, which brought to a climax the club's activities of the year, was held February 12, 1932 in the First Presbyterian Church. The program was well represented. The selections most appreciated were "The Sleigh", a Russian song and "Goin' Home", from the Largo of the New World Symphony by Anton Dvorak. The Octet was also applauded heartily. The evening was brought to a close by a dance held in Bevier Hall.

The Glee Club affords every student interested in music an opportunity to develop his voice and improve his taste for music, besides giving him an opportunity to become acquainted with other students and to enjoy a social time each Tuesday night. It is hoped that this spirit of unity and the desire to further the purpose of the Club will continue.

GIRLS' GLEE CLUB

The Girls' Glee Club was founded in 1926, and was sponsored by the Girls' Activities Association until this year, when the Men's and Girls' Glee Clubs were united under one name "The Glee Clubs of Mechanics Institute," which is now responsible to the Student Council—Officers are still chosen by the members, these officers co-operating with the officers of the Men's section.

The combination of the Clubs was very successful and was found beneficial, too, as so much more could be attempted by the members. Next year the Girls' section hopes to have a quartet and soloists of their own, just as the men had this year, there being some notable talent among them.

ORGANIZATIONS

First Row—Lackiewicz, Sherman, Baskey, DeBarba, Barton. Second Row—Camenga, Crowell, Palmer, Wilcox, Law, Taff, Wheeler, Moore, Zirgulies. Third Row—Smith, Vormwald, Coy, Larson, Love, Vosburg, Blackmer, Mills. Fourth Row—Farwell, Trescott, Townley, Frentz, Krajewski, Sibson, Dort, Starck. Fifth Row—Bubnis, Quigley, Welch, Fries, Funk, Bowden, Dentler, Hickok. Sixth Row—Maxwell, Tubbs, Dix, Dikeman, Baron, Schieder, Gilkinson. Seventh Row—Sachse, Wolf, Batson, Kimpton, Perley, Brubaker, McKee.

MEN'S GLEE CLUB

The Men's Glee Club was organized as a separate group in 1925. Although it is now combined with the Girl's Club, it still retains its individual officers and is administered directly by the Student Council.

Until this year the membership has been small, numbering approximately thirty, but there was a marked increase of over one hundred per cent. due, no doubt, to the combining of the Glee Clubs. In addition to its activities in the Club, the Men's section had an octet and soloist who, on several occasions, gave very creditable broadcasts over a local radio station.

THE ELECTRICAL STUDENTS ASSOCIATION

KENNETH W. KIMPTON	President
PAUL W. ERICKSON	Vice-President
LEONARD C. STENZEL	Secretary
BENJAMIN J. TOWNLEY	Treasurer
MR. EARLE M. MORECOCK	Faculty Adviser

The Electrical Students Association was organized in the fall of 1923 under the guidance of W. N. Fenninger, former supervisor of the Electrical department.

The purpose of the organization is to promote friendliness and co-operation among the Electrical Students of Mechanics Institute. The organization also strives to enable the members to apply the technical training learned in the school to their work in industry. At the monthly meetings interesting and instructive lectures are given by prominent engineers associated with companies in Rochester and elsewhere. Inspection trips are conducted through different manufacturing plants so that the members can keep informed on industrial progress in their respective fields.

Since its foundation, the Association has shown growth in membership and in plans undertaken and carried out.

The Retail Association, originally organized to promote social activities, has this past year broadened its scope. It has brought guest speakers, prominent in the retail field, for dinner-lectures. This has greatly increased the contacts of the group with the outside field and has developed a keener understanding and interest with respect to retail problems.

The year started with a dinner party for the Freshmen, at the Buckingham Club. On November 6, a dance, the first by the Association, was held in Bevier Hall. As in the past, spring called the Retailers out-of-doors for their annual picnic on May 15th, and closed the activities of a very successful year.

The Survey Club was organized in 1928 to increase the opportunity for social life and friendship among the students of the Food Administration Department.

At the beginning of the present year a Get-Acquainted Party was held at the Buckingham Club; it was attended by eighty girls, as well as by several members of the Faculty.

A unique rush party was held at Jane Brown's home, a Christmas party, a bridge and theater party at the Auditorium were greatly enjoyed.

At Christmas the Club sent food, clothing and toys to the Friendship Nursery School.

All members feel that the achievements of this year have been worthy of the purpose of the founding of the Club.

Work and play are both essential in a well-rounded life. It is the aim of the Dormitory Council to harmonize the studies and social activities of the Dormitory girls in such a way that their lives may be benefited through academic pursuits and enriched through human contacts.

With this ideal in mind, the Dormitory Council devotes its time and attention in the sincere hope that it may serve, in some way, to broaden and balance the lives of the girls it represents.

The Retail Bulletin is the latest publication of Mechanics Institute. As the official organ of the Retailing Department, even in its first year, it has presented material of sufficient interest to the student body and to co-operating retail organizations to justify its continuance.

The Mechanics Institute "M" Club was founded in 1929 by Charles Cala. The purpose of this organization is to foster the advancement of athletic activities for men of Mechanics Institute through hearty co-operation with the coaches and faculty managers of the various sports. Membership in this Club is conferred upon those receiving the official "M" in basketball or wrestling.

The Henry Lomb Society, organized in 1916 by the Student Council and Faculty of the Institute, is an organization to promote excellence of scholarship, interest and participation in student activities, and to develop traits of high quality in individual students.

The Society was named after Captain Henry Lomb, the founder of the Institute, whose life activities and high quality of character inspired its organization. The ideals of citizenship and unselfish service so conspicuously exemplified by Captain Henry Lomb are pointed out as the goal of each member of this organization.

This Society is empowered to elect each year a proportion of the graduating class. Membership is based on scholastic attainments, character traits, and interest and participation in student activities.

ALUMNI ASSOCIATION

OFFICERS

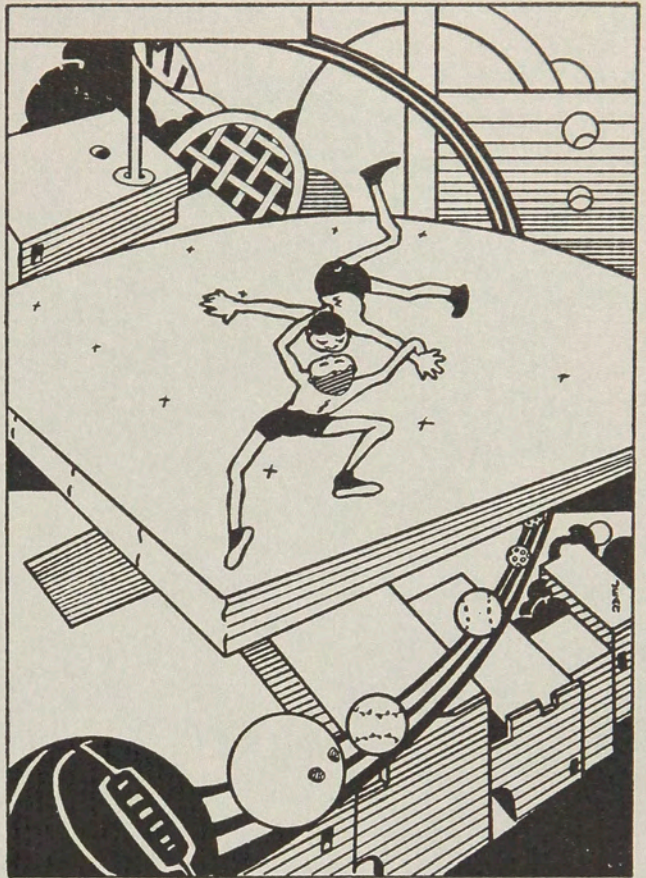

GUNNAR WIIG	President
ELLEN PUTNAM	Vice-President
JUSTIN J. C. HICKEY	Secretary
HAROLD BEAL	Treasurer

The organization of the Alumni Association dates back to 1891 and its membership is now numbered in the thousands.

All graduates of day and evening school, as well as those who have completed one years' work at the Institute are eligible for membership, and are carried on the records as long as any trace of them can be found. The School gives each graduate one years' membership in the Association and it then becomes optional whether dues are paid yearly or a life membership paid for. All names are recorded whether dues are paid or not but the paid members, only, receive issues of the "Psimar" which carry alumni news pages.

Every June the graduating class is the guest of the School at the Alumni Dinner and at the same event class reunions are held. These reunions bring together school friends from all parts of the world and serve to strengthen the bond of interest between the Institute and its Alumni.

The Alumni Association heartily welcomes the members of the graduating class of 1932.

1931-1932 WRESTLING

MARK ELLINGSON	Coach
WARREN C. DAVIS	Frosh Coach
SHERMAN HAGBERG	Faculty Manager
HARRY A. CARLSON	Student Manager

Wrestling at Mechanics Institute for the past season was not only successful by leading in the final score of the year, but also in attaining a brand of sportsmanship seldom found in collegiate realms. This remarkable showing by the squad as a whole, can be credited to coaches, Mr. Ellingson and Davis, as well as to each individual matman. Sherman Hagberg, Supervisor of Athletics, and Faculty manager of Wrestling, secured the program of high calibre teams pitted against M. I., and through his efforts the teams were furnished with the necessary equipment.

We regret the loss of the major portion of our squad made up of Captain Thomas, Shopmeyer, Maley, Pike, and Roche of the Institute, and Gray, Weibly, Bye, Smith, and Morehouse of the Reserve. However, the Frosh team makes us optimistic and gives promise of another successful season next year.

A wrestling banquet fittingly ended the season. At this time the teams presented Coaches Ellingson and Davis with gifts in appreciation of their efforts toward a successful season.

INSTITUTE WRESTLING TEAM

The Institute team this year again "took up arms" against the strong Chicago University force, who undoubtedly were out for revenge of their tie at the hands of M. I. three years ago. Although they scored twice as many points as did M. I., two out of three falls were credited to Mechanics men, Becker and Pike. Our defeat at the hands of Michigan State, was the major set-back of the season and seems quite unaccountable. Since M. I. first wrestled with Syracuse University, we have tasted defeat, but the scores are getting closer and closer, and at this rate should spell victory for M. I. in another season. Their victory of but two points over the Institute team was well and hard earned, and as per schedule all the falls of the meet were credited to M. I. Western Reserves defensive wrestling ability proved master over the aggressiveness of M. I., and their close victory was also hard earned. Renewed negotiations with St. Lawrence meant defeat for them and offered an excellent foe with which to end the season.

RESERVE WRESTLING TEAM

A Reserve team constituted a new feature in M. I. sports this year. Its members were made up of "runners up" to the Institute team, and their opponents of the better Y. M. C. A. teams of the surrounding district. Although their score of victory and defeat was equal, the point scores made were decidedly higher than those of their opponents.

FROSH WRESTLING TEAM

The Frosh wrestling team celebrated its second anniversary brilliantly by again winning comparatively more points than their opponents, in spite of the fact that they won but two of their meets, and tied two. The '34 class furnished material for a good team which easily won over Alfred University Reserves, and tied the Syracuse University Frosh. Upon this team rests the burden of next year's success, as but three regulars will be with us.

1931-1932 BASKETBALL SEASON

The basketball season of 1931-1932 was very successful for Mechanics Institute. Not for many years have we had a schedule composed entirely of College and Normal School teams. In comparing our record with those of past years, consideration should be given to the calibre of the opposing teams.

The combination on the court this year functioned quite well under the tutelage of Coach "Pete" McKay. Pete had his hands full this year coaching both the frosh and the varsity teams.

Captain "Dutch" Zeitler took first scoring honors with Bill Eisenhart running a close second. These high scores were achieved only with the steady and successful floor work and passing of Warren, Mathews, Bailey, and Niermeyer with Johnson, Hoeffler and Sitterly filling in the gaps very easily and with the head work that substitutes always seem to possess.

The schedule was made up at the beginning of the last season by faculty manager Harold Brodie, and manager Harold McClellan. By adding Canisus and Hartwich Colleges to our opponents, they served to make one of the best and most interesting schedules that M. I. has had.

Awards this year were given as follows:

Letters and sweaters to one year men: Frank Matthews, Jr., Frank Bailey, Milford Johnson, Howard Sitterlee, Lewis Hoeffler, and Harold McClellan, Manager.

Blankets to three year men: Bramen Zeitler, Paul Warren, Elmer Niermeyer and William Eisenhart.

S P O R T S

ZEITLER

"Dutch" was captain of this year's team and, retained his title of "Speed King" from last year. He was the fastest man M. I. saw on the court this year. His consistent basket shooting gave him high scoring honors of the season. We will all miss "Dutch" next year.

WARREN

"Rip" was one of the greatest battlers on the court. He played a superb game as guard for three seasons, holding his opponents in check while garnering his points regularly. His remarkable eye at shooting decided two games this year. He'll be a man hard to replace next year.

NIERMEYER

"Niery" or "Al", as he is called, maintained his high standard of play again this year. He had lots of hard luck with injuries, but managed to get in and play the game holding his opponents in check and getting his share of points. We expect to see "Niery" married by next year. If so we are sure all the students will wish him happiness.

EISENHART

"Bill", who for the past three years gave us an excellent display of handling the ball and floor work, will be missed next year. He maintained his old fighting spirit throughout the season and took second high scoring honors. He had one great time with Rienzo at Oswego. "Bill" was married during the basketball season. Good luck, "Bill".

MATTHEWS

"Mattie" was the giant on the squad this year and he used his height to an advantage. "Old Mat" put up a very good fight against Canisius and probably was the greatest reason for their lack of scores in the first three quarters of both their contests. "Mattie" will be missed next year both for this work at center and his scoring ability.

S P O R T S

BAILEY

Frank is captain elect for next year and is the answer to any maiden's prayer. Ask Sally. Bailey put up a wonderful game as guard and held Lipinski of Canisius, all State forward, to one field goal for three quarters. That's a man size job for any guard. The Ogdensburg southpan flash will be back next year. We expect bigger things from Frank next year. Be careful, girls.

JOHNSON

"Millie" played true to form again this year. His use of his cool head in emergencies was a distinct asset to the team. Although "Millie" didn't get into many of the contests this year, he made his presence felt when he had occasion to play. "Millie" exemplifies the fine spirit shown by the basketball team this year. We're expecting him back next year with that same fight.

HOEFFLER

"Hoef" is another local boy who is bound to make a real place on the team next year because of his fighting spirit and his football tactics. When Hoeffler used the block play it worked with unerring success. We hope to become better acquainted with "Hoef" next year.

SITTERLEE

"Sitt" is another of the newcomers to the varsity ranks this year and he surely accounted for himself. When he went into the game you could be certain M. I. would score more points. "Sitt" is popular with the student body. There will be much cheering when he wins laurels for M. I. next year!

FRESHMEN

This team was the most successful team, by the percentage basis, that Mechanics had this year. This team was coached by Pete McKay and their schedule was made up with the varsity schedule. They took all but one of the trips that the varsity made during the season and were very successful.

They won seven and lost four games or percentage of sixty-three and seven-tenths. This is a very remarkable feat considering the opposition that they faced.

Tenny was the high scorer for the year, with Roy and Olsen close behind. "Capt." Biegler with his floor work and generalship also furnished a good number of points to the collection. Dwyer, Gridley, Kauffman, Bishop and Coleman rendered their fighting spirit to the contest and by their co-operation the other men were able to increase the score.

S P O R T S

MARDI GRAS

From the sports angle, the Mardi Gras, held March 11, closed the books for the varsity team and set the seal on the interfraternal rivalry for basketball championship between Chi Delta Phi and Pi Kappa Gamma, runners up. Chi Delta Phi won the title and the cup which, because it has gone to that fraternity for three successive years, is now given into its permanent possession.

In the Institute-Alumni clash, the varsity men captured the victory in a perfect whirlwind of hard-fought basketball.

Pi Kappa Gamma fraternity received the scholarship cup for 1931-32 for the highest scholastic standing.

As an interesting innovation to the traditions of the Mardi Gras, Miss May Williams, voted by her fellow students as "the most beautiful and popular girl in school" was crowned as queen of the Mardi Gras. With Mr. William Shopmeyer, president of the Interfraternal Council, she led the grand march, and received from him a sheaf of red roses as token of her rank.

S P O R T S

CHI DELTA PHI BASKETBALL TEAM

This year, more than ever, Chi Delta Phi feels elated with their success upon the court. Again Chi Delta Phi came through ahead in the Inter-Fraternal competition and with this, the third consecutive year, the cup goes to the Chi Delt's. Competition was keen this year and every game was close. The fraternity feels that they did well to take the cup this year.

The fraternity takes this opportunity to express its appreciation for the spirit of brotherhood and sportsmanship shown by the rival teams. This spirit was evidenced not only on the court but in all the activities of the fraternities.

The 1932 Basketball Season closed very successfully for the "Pi Kaps". We had many a hard fought struggle during the season. The climax of the year was the spectacular game with the seasons' rivals, the Chi Delta Phi, at the Mardi Gras. Though we lost it was a game long to be remembered by those who saw it.

With the loss of only one man, we hope to have a strong aggregation for the next year.

GIRLS' ATHLETIC ASSOCIATION

Life, with all the complexities of this modern age, demands the girl with a well-rounded personality. G. A. A., well aware of this demand, offers an excellent opportunity for every girl to prove her leadership in work and play, and to develop both mentally and physically in order to meet her problems of life.

Every year the G. A. A. Council spends a week-end at the Y. W. C. A. camp, Wacona, on the shores of Lake Ontario. Here they become better acquainted with each other, and plan their activities for the coming year.

The social calendar presented in the fall was carried out with enthusiasm. The "Who's Who" party, with its wholehearted welcome to the Freshman girls, opened the season. The next outstanding event was the Formal Banquet held at the Hotel Rochester. G. A. A.'s wealth of health and beauty was displayed in all the charm of feminine attire. The Roller Skating party followed with fun for all. Skill and good sportsmanship made this event creditable to the association. At the Annual Christmas Tea, to which all women and the faculty are invited, the Girl's Glee Club sang with an inspiration the Christmas Carols, old yet ever new. The M. I. Winter Party was a triumph. The entire school, including the faculty took an active part in this frolic and enjoyed it immensely. In April the association sponsored a dance, and in May closed the season with an All Sports' Banquet at which the athletic awards were presented. Election of council members was also held during this month and the new officers were installed at a formal dinner.

GOLF

Golf proved to be among the most successful and popular sports of the year. Under the tutelage of Mr. Ray Huller and the management of Miss Ruth Mix, thirty-six girls have shown their ability to master the sport. Instruction and inside practice were held in the gym. The tournaments were played at various public and private courses in the city.

S P O R T S

TENNIS

Tennis was one of the most popular sports during the 1931 and 1932 season. Many aspiring racket wielders turned out for the classes in instruction, which started directly after the Easter vacation. With the arrival of warm weather, there was a general migration out to the park courts. A very interesting tournament brought out some real competitive material, including both beginners and advanced players. A ladder tournament was a new feature this year which enables one to challenge another player ranking higher, bringing added zest and enthusiasm to the game.

Ping Pong was included in the list of school sports this year. Early in March a table was set up in the girls' rest room of the Eastman building and the game won popular approval. Every Tuesday and Thursday at the noon hour the room was open for those who wished to play.

RIDING

On Thursday afternoons from 4:30 to 5:30 the riding class of the G. A. A. met at the Culver Road Armory. That progress was made is self-evident. Even the beginners after ten lessons were trying the jumps.

Throughout the fall the class rode out of doors. Riding through the woods with the falling autumn leaves, and the quiet unbroken except for the clump, clump of horses' hoofs, gives a feeling of being ready for adventure. Stormy weather forced the riders indoors to be instructed in the jump and improving seats.

Then with Spring came out-of-doors riding again. The season closed with a sunrise ride and a breakfast to satisfy appetites aroused by crisp morning air and vigorous exercise.

S P O R T S

HIKING

G. A. A. Hikers started the season with an overnight hike October 3rd at North Chili. Ten girls hiked out from the bus stop to a good camping spot on Black Creek, cooked a steak dinner and settled for the night. Sunday morning ablutions in the creek helped wake the girls for breakfast and their hike home.

In November fifteen girls took the car to Sea Breeze, then hiked several miles to the summer home of Miss Marion Leffler, an Art Student. The girls left Saturday morning, cooked their lunch and after an afternoon of hiking and recreation, returned in time for dinner.

Since early December was without snow a group of sixteen hiked to the log cabin at Ellison Park one Sunday morning. The warm cabin was inviting and added much to the enjoyment of bacon and eggs and (good) Coffee.

In March a very impromptu skiing and tobogganing party was planned and a group of sixteen took advantage of the heavy snow fall. Highland Park proved a desirable winter sportsland and the snow lark was ended with a "cocoa and doughnut" party.

May first witnessed a Sunday morning breakfast hike sponsored by the entire G. A. A. Council and proved a splendid climax to a full season of winter sports.

SWIMMING

On Thursday evening from 8:00 to 9:00 P.M. the G. A. A. swimming classes were held at the Brick Church. Here, under personal supervision the girls learn to swim with skill and proficiency. Therein lies the keen enjoyment of the activity and its continued use.

Through the capable instruction of Miss Mildred Proper, the girls learn to dive, to make and break holds and to apply principles of life-saving. This sport, because of its contribution to health, safety education and wholesome use of leisure time, ranks among the foremost.

S P O R T S

BASKETBALL

Through January, February and March, practice was held in the gymnasium every Wednesday from 4:00 to 5:00 P.M. and every Thursday from 7:30 to 9:30 P.M. at the Brick Church.

Over thirty girls turned out and from these, two teams were formed, Freshmen and Upperclassmen.

The upperclassmen, consisting of Brown, Captain, Espenmiller, Filkins, McCabe, Rosenberg, Wheeler and Vaughan, defeated the Freshmen consisting of Norton, Captain, Burse, Gurnee, Jayne, Kaegebin, Rand, Rattallick and Simmons, with a score of 24 to 13.

A varsity was also formed of Espenmiller Captain, Burse, Filkins, Gurnee, Jayne, Kaegebin, Mix, Norton, Rand, Rosenberg, and Vaughan who played the Rochester General Hospital and Y. W. C. A. teams.

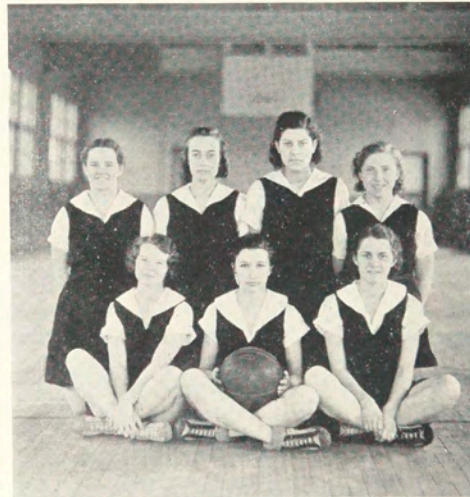

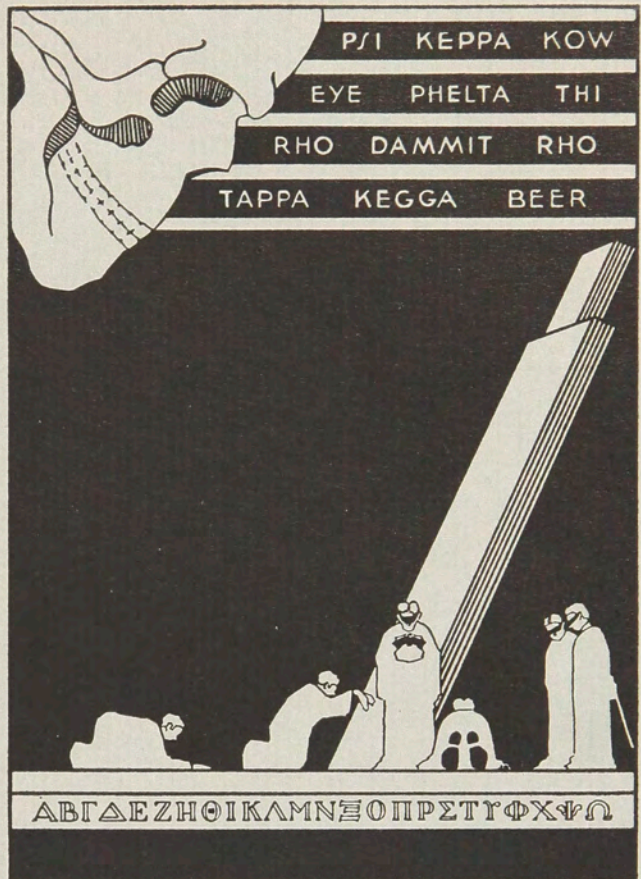

BOWLING

Every Thursday night from November to February found some forty enthusiastic and interested girls at the Brick Church bowling alleys. At first the scores showed that practice and coaching was necessary. Through continued efforts much improvement was made as was shown by the highest score obtained, 162.

A tournament was held the latter part of January. So much interest was shown that this sport continued on an active competitive basis throughout the month of February. The highest scores were made by Betty Norton, Anita Cotrael, Evelyn Clark and Barbara Brown.

The Brick Church bowling alleys prove an excellent place to perfect the game. Girls, why not come out next year and make the most of this popular mid-winter sport?

INTER-FRATERNAL COUNCIL

WILLIAM SHOPMEYER	President
ALFRED HOBBIE	Vice-President
GORDON HOLCOMB, JR.	Secretary
CHARLES EDWARDS	Treasurer

The five fraternities at Mechanics Institute offer opportunities to form friendships through social and business relations that are lasting throughout life.

It is necessary that a spirit of good fellowship exist among the five fraternities. To govern the actions of the fraternities, every year each fraternity elects three representatives, including its President, to the group known as the Inter-Fraternal Council.

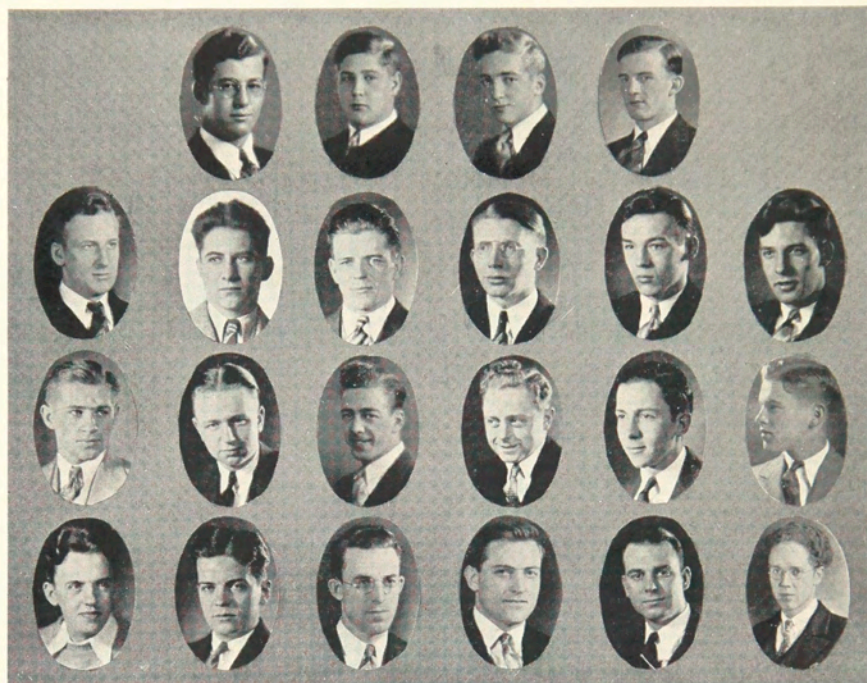

The duties of the Council are to bring the fraternities closer together, to regulate rushing and rush parties, and to settle all questions of inter-fraternal interest.

An outstanding event of the year is the Mardi Gras, managed by the Council. At that time the question of basketball supremacy among the fraternities is settled.

At present there are two awards, a scholastic trophy for the fraternity attaining the highest scholastic standing, and a basketball cup for the winner in the Inter-Fraternal Basketball league.

The Inter-Fraternal Council has functioned very efficiently in accord with a constitution adopted to set the standard for all action taken. The Council has operated in a manner which has made inter-fraternity relationship an honor to the Institute.

CHI BETA KAPPA

Chi Beta Kappa was founded in April 1929 for the purpose of promoting better scholastic standing and good fellowship among the students.

Social activities of the year began with a rush party at West Manor which was attended by active and prospective members. The informal initiation was held at Conesus Lake and was followed by a formal initiation at the Builder's Exchange. Following the latter a dinner dance was held in honor of the new brothers at the Marigold. The fraternity sponsored an "Old Clothes Dance" in the fall and completed the year's activities with a spring dance in the Bevier building.

The brothers feel that the year has been most successful and regret the loss of several active members who graduate this year.

CHI DELTA PHI

Chi Delta Phi was originally organized in 1914 as the Delta Delta society, and changed to the Chi Phi Fraternity one year later. Under the Statute laws of the state of New York the organization was incorporated as the Chi Delta Phi Fraternity in 1920.

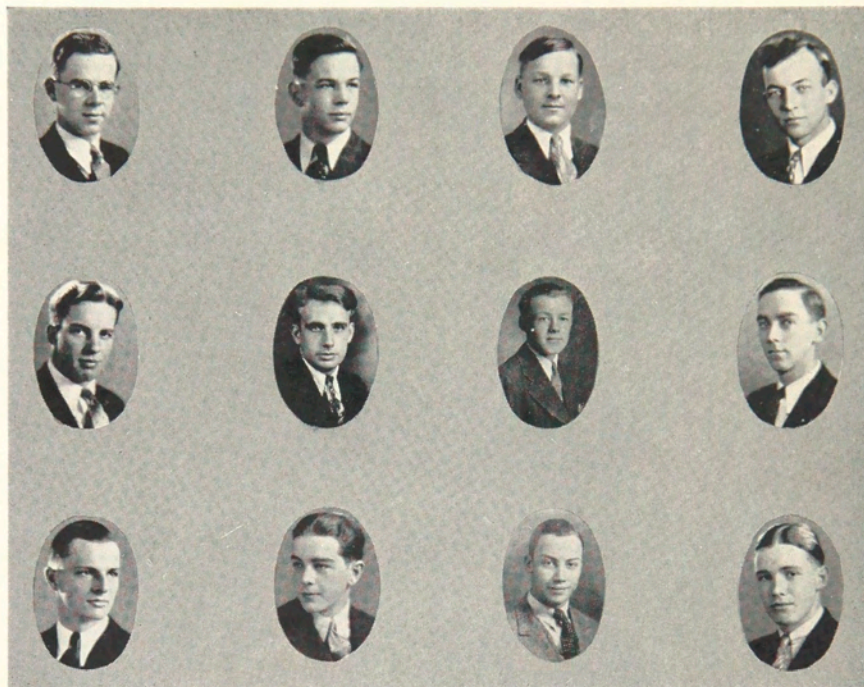

The social season was opened with a dance by the Fraternity in Bevier Building, the success of which led to a second well attended dance the following month.

The initiation activities began with a rush party at Pittsford Inn attended by seventy-five rushees and brothers. The informal initiation was held at McPherson's Point followed by formal initiation at the Chalomar, both of which were carried out with the usual initiation ceremonies.

The colorful annual spring formal marked the climax of the social calendar and took place May 13 at the Sagamore Roof.

With the winning of the Inter Fraternal Basket Ball Cup at the Mardi Gras and the completion of an unusually successful social program the Fraternity feels that the year 1932-33 has been one of the most active in the history of Chi Delta Phi.

PI KAPPA GAMMA

In April, 1929, a small group of men, with a belief that the existing fraternal orders were not adequate, laid plans for the present Pi Kappa Gamma. After obtaining the recognition of the Administration and the Interfraternal Council, the Fraternity faced the ordeals that are peculiar to an infant organization.

The Fraternity was organized with four purposes in mind: to offer to the students of the Institute a medium for fraternal relations; to accomplish this end with a minimum of expense; to establish and maintain a high scholastic standard; and to extend the Fraternity to other schools of the same type as Mechanics Institute. Before the end of the year a number of dinner meetings had united the group into a really fraternal association and had laid a foundation upon which to build.

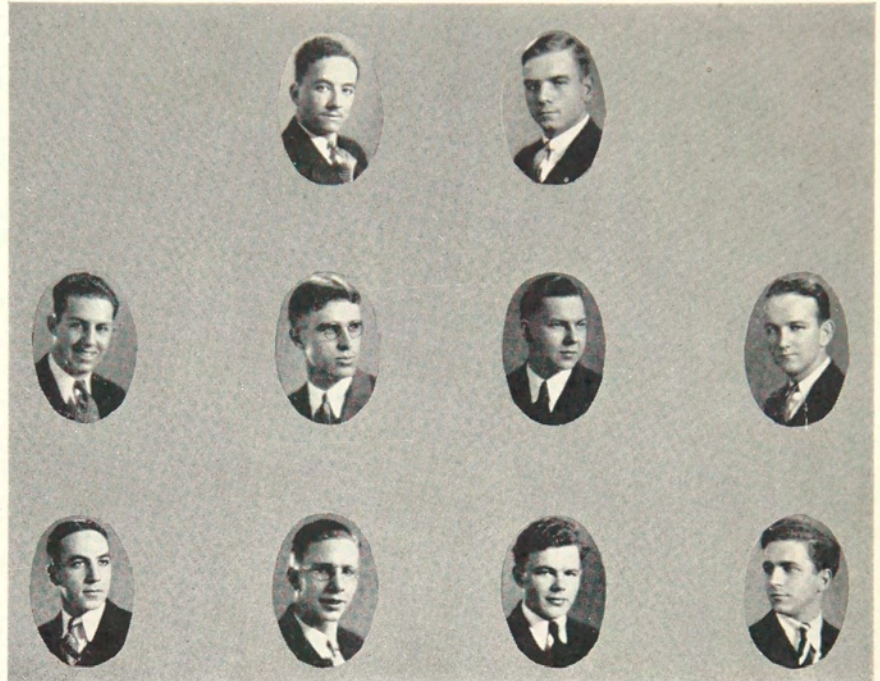

The first three objectives have been gained and the fourth, a goal for the future. The scholastic standing of the members is maintained well above the average. Although Pi Kappa Gamma is one of the younger fraternities it has come to be greatly respected because of this standard.

Much of the success of the fraternity is due to the council of Frederick H. Evans and Edward H. Lang, faculty members of Pi Kappa Gamma.

Ten graduating members, rich in the knowledge of friendship and brotherhood, leave us. To them the Fraternity extends best wishes for the future.

Pi Kappa Gamma enters its fourth year with high hopes. "EXCELSIOR."

ZETA TAU ZETA

In January, 1930, a group of students of Mechanics Institute residing at the Y. M. C. A., under the leadership of Douglas Waddington '30, formed the Beta Chapter of Kappa Upsilon Kappa. For two years this organization functioned with its headquarters at the Y. M. C. A.

In the fall of 1931 the Beta Chapter of Kappa Upsilon Kappa applied for entrance at Mechanics Institute as a school fraternity. This organization was recognized by President Randall. After being recognized by the Student Council of Mechanics Institute, it was found advisable to break affiliations with the Y. M. C. A. and to form a new organization with a new name. This was carried out and the Mechanics Institute Chapter of Zeta Tau Zeta was formed. This Chapter was recognized by the Student Council in January 1932 and by the Inter-Fraternal Council the following month.

The members of Zeta Tau Zeta hold the aim of attaining high scholarship at Mechanics Institute, of acquainting its new members with a beneficial student life, morally, socially, educationally, and athletically.

ALPHA PSI

Alpha Psi, the second sorority to be organized at Mechanics Institute, was founded in 1920 by a group of ten girls who held as their ideals the highest standards of honor in both work and play. There are now thirty-nine active members whose daily aim is to uphold these ideals.

The past year has brought forward a new and worthwhile step in encouraging and maintaining scholarship. Each year keys are given to the six girls who have done outstanding work in Sorority activities and have maintained high scholastic standings.

The close of the pledging season found the Sorority with pleasant memories of a successful rush dinner and Formal dinner party. The Sorority also held a well attended open dance in Bevier building at the beginning of the spring semester. This was later followed by the annual Formal Dinner Party of Alpha Psi which was held at the Hotel Rochester.

DELTA OMICRON

In 1921 eight girls founded the Delta Omicron Sorority with the aim of establishing firmer friendships and maintaining high ideals between the Sorority and the Institute.

Delta Omicron opened the season with a rush dinner at the Normandie Inn and later held a formal initiation at the Odenbach Restaurant. Two novelty dances, the Hoodoo Dance and the "Amos 'n Andy" dance were held in the Bevier building and proved to be two of the outstanding occasions on the school calendar.

The Closed Formal Dinner dance held at the Hotel Seneca Ball Room brought to an end the years' activities.

With the closing of the school year the Sisters of Delta Omicron hope that the same strong bond of union that exists today will be carried forth and strengthened in the ensuing years.

PHI UPSILON PHI

Phi Upsilon Phi, the first sorority at Mechanics Institute, was organized in November, 1919. The purpose was to further a spirit of friendship and unity between the Schools of Applied Art and Household Arts and to encourage the highest of ideals and standards.

Traditions, passed down through the fourteen years of Phi Upsilon Phi's existence, have become an integral part of the organization. It is through fidelity,—fidelity to the school in encouraging high scholarship, fidelity to all with whom contact is made; it is through unity,—unity which makes for coherence, and through coherence for emphasis; and finally, it is through friendliness toward everyone, that Phi Upsilon Phi strives to become a true sisterhood.

To the future Sorores of Phi Upsilon Phi, we, the graduating members of the class of 1932, entrust our hopes and aims.

SIGMA KAPPA DELTA

Sigma Kappa Delta was organized in 1926, to promote high scholastic standards and to establish a closer relationship between the two schools. Today this sorority has twenty-eight active members, five honorary members, and an active alumni association, just organized this year with twenty members.

A bit of charity work is done each year by the sorority. This year at Christmas time three large baskets of food and toys for the children were sent to one of Rochester's needy families.

Our social year was opened with a picnic then followed by the "rush" party which was known as "A Night in New York." By the aid of a chartered bus we first took our guests to a Chinese restaurant, later to the theater, and ended up at Childs. The sorority held a very successful dance carrying out the idea of the bicentennial. Later on in the year a very lovely spring formal dance was held at the Yacht Club and then the school year was ended with a house party. Also many personal parties were held throughout the year.

The Freshmen and Juniors of Sigma Kappa Delta take this opportunity to express appreciation to the Seniors for their capable leadership during this year, and to wish them every possible success in their future work.

INTER SORORITY COUNCIL

The Inter-Sorority Council was organized in 1920 for the purpose of uniting the sororities of Mechanics Institute.

The council consists of two representatives from each of the five sororities and five faculty advisers. The aim of the organization is to guide the sororities in matters of mutual interests and to establish rules and regulations regarding the rushing of prospective pledges. The council represents the strongest and most enduring of the women's organizations at Mechanics Institute and helps to create and retain the spirit of friendship and good fellowship that has long been prevalent among the sororities of the Institute.

SLAMKIN

DEDICATION

JOHN RANDULP

MAY BENIJOHNS

We dedicate this 1932 Slamikin to John Randulp, and May Benijohns, who, in the fall of 1929 placed around our necks the noose of higher education, and who, after having led us through labyrinths of suffering and darkness, now prepare, on the memorable date of June the 7th, in the year of our Lord nineteen hundred and thirty-two, to spring the gallows trap and end our suffering, tortures and bewailing. May the Saints bless them.

And this Slamikin we secondly dedicate to the mothers of Mekanix students who take oil painting, machine shop, and laboratory work, and which poor maters do their own laundry. Amen.

THE UNDERCLASSMEN

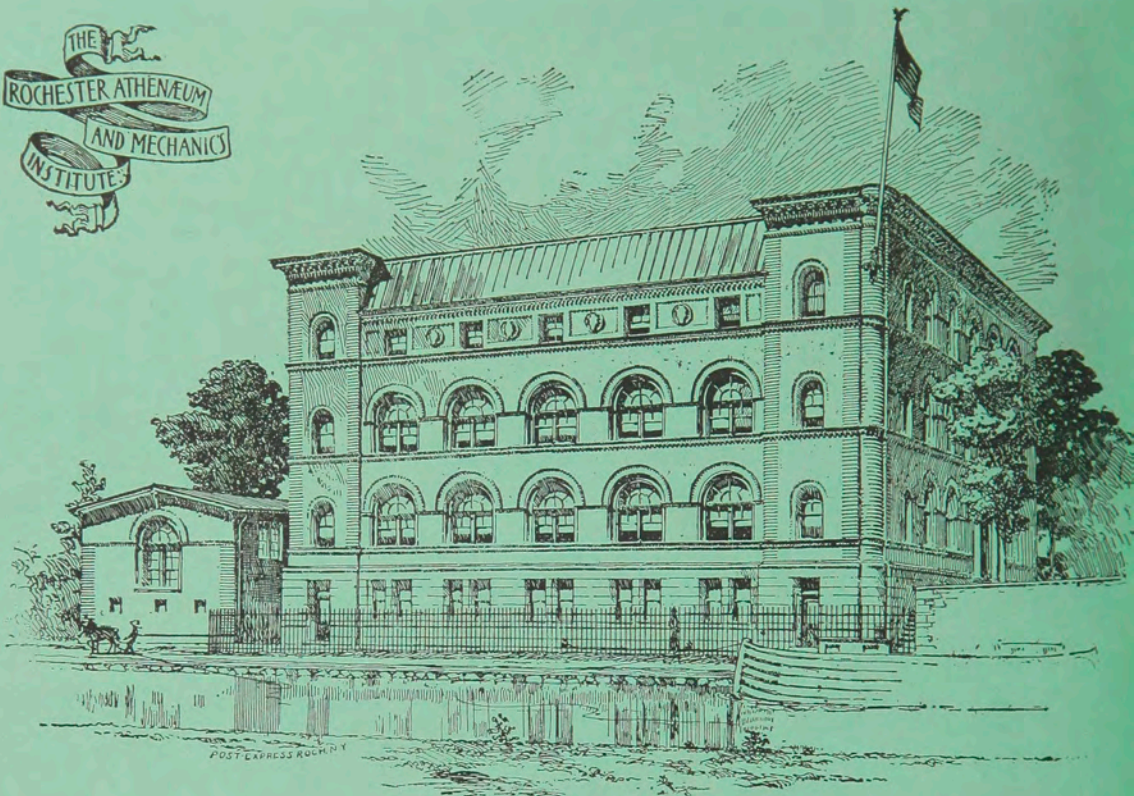

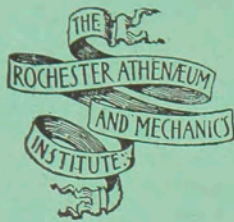

These noble specimens of American man and womanhood are left to carry on the task of cluttering up the corridors of Mekanix, with the departure of the 1932 Sinner class.

Frail and fragile and fresh from Fairport, Front Street and Fudge Corners, eager to hasten through their three years that they may relapse, and carve their niche on the world.

These innocent dopes may be seen throughout the week strenuously relaxing in the corner drug store where extension courses are given in this, that and the other thing.

The only grades these scholars know are Cobb's Hill, Dumpling Hill, and Grade A milk. The high marks which they strive for may be seen on the ceilings of the respective reception rooms, in the form of meaningless hieroglyphics.

PAMPAS LIFE

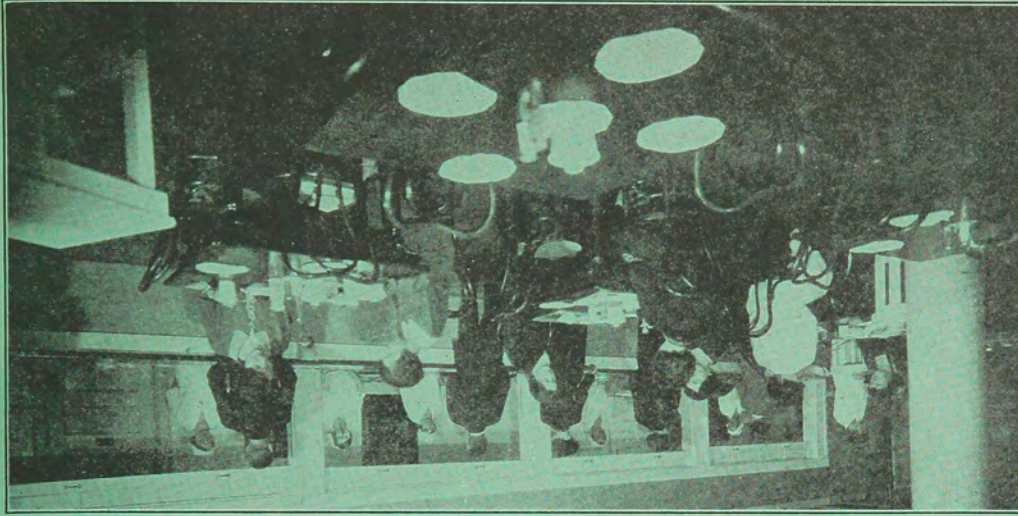

OUR INSTITUTE

Towering over the waters of the Eery canal our school stands, a mighty monument to the boys who made higher education what she are. Here the youth of today may choose and learn whatever vocation he so desires, be it blacksmithery or wax flower making.

This institute working full time, or twenty six hours a day turns out annually the finest gears of higher education, to assist in turning the wheels of commerce, science, and industry throughout the English speaking world.

PAMPAS LIFE

THE GRUBBERY

Beneath the classrooms and the din and confusion of the busy city Mekanix Institute maintains one of the finest vittles producing establishments in the Flower City. Here one may pick and paw his pie and porridge, while a three piece orchestra renders vitamins in the blue room.

Many of Rochester's noblemen may be seen in the back room any noon discussing politics, education, traveling salesmen, or eating a bun.

All of the concoctions compounded and created in the grubbery by skilled dietitians are a harmonious combination of calories, vitaphones, and a raisin here and there, perhaps.

The line forms on the right and roller skates are provided for the convenience of the patrons. The hospitable atmosphere of the joint makes the diner feel as though he were in the privacy of his own pantry.

A dispatch comes from the department of Costume Design on what the well dressed young man will wear for the summer. Pot bellied vests will be the vogue. Pleated shirts with muslin bustles will take the place of sulphur and molasses and the presidential outlook appears to be rather of a mystery. Beer bottomed trousers will appear on the campus, and red neckties are going out. The eighteenth amendment will be repealed and at the same time butterflies will give milk. Pants with vertical stripes will aid in lessening fannytosis and Mr. Absorbine has a corner on the Athletes Foot. Summer weather requires the use of heavy oil in your crankcase and light wines in your transmission. Send in the enclosed coupon for your free sample of your favorite poots taste.

CLASSES

The strolling cameraman snaps his shutter and gives us a glimpse into the classrooms of Mekanix. Upper left shows a class in grinding. The boys are all pictured with their noses to the grindstones. The upper right hand daguerrotype depicts the class in pattern cutting. Patterns are made here for fancy housedresses, button shoes, reducing girdles and lace pajamas.

The lower left hand photo shows us just how the girls get together in the dormitory. These bull sessions are held once a week, thus giving all of its members ample time to acquire all of the fresh scandal and gossip. Prevarication is discouraged and only authentic dirt may be peddled, but color is added and contests are constantly held to see how fast a new yarn may make its way around the dormitory.

Number four finds us in the sketch class. Models are imported from the metropolitan area and the keynote is variety. Bessie Zilch is on the stand giving the students the famous Zilch headstand pose. The models pose for a period of twenty-five minutes, when they are awakened for a rest. For further information address the registrar.

The Aristocrat of the Table

*This Year . . .
The Ramikin was
printed by* **HART**

**WHAT A DIFFERENCE A LITTLE
THOUGHT AND ORIGINALITY MAKE**

*W*E of THE LEO HART Co. pride ourselves on the fact that the Year Books bearing our imprint are a LITTLE FINER, A LITTLE MORE OUT-OF-THE-ORDINARY, A LITTLE BETTER DONE than the average, and we strive to maintain that standard in ALL OF OUR WORK . . . The PERSONAL THOUGHT and CAREFUL STUDY given each INDIVIDUAL book, in addition to FINE TYPOGRAPHY, HIGH GRADE PRESSWORK and SKILLFUL HANDLING thruout, cannot help but show in the finished product . . . And the Editorial Staff which turns its book over to us has a right to expect an Annual that is DISTINCTIVELY DIFFERENT.

*⎓ This issue of THE RAMIKIN was
engraved and printed complete in
the plants of The Leo Hart Co. ⎓*

THIS BUSINESS OF CLOTHING

can be merely the selling of merchandise at a price—or it can be a *Service*. We like to consider it a service—and it's on that ideal that we have built the Store for Men. Our salesmen are experts, every one—trained to know what's newest, what looks best on each individual wearer, what best suits a man's temperament, position or purpose. "Good fellows, well met"—and thoroughly experienced in the art of giving service!

Congratulations:

The Rochester Gas and Electric Corporation heartily congratulates the 1932 graduating class of Mechanics Institute. With the excellent training which this institute of learning has afforded, those who have completed prescribed courses should be well prepared to "fight a good fight" in their chosen fields of activity.

It has been our privilege to be associated with some of your young men in the Co-operative courses and to them, as well as the others who have gone "over the top" we wish to express our wishes for a future filled with the joy which comes from success, through work well done.

The LINCOLN-ALLIANCE Group of Banks

You've planned to be successful after graduation, of course. And you've made a bank a part of that plan.

Let this bank help you. Plan to take advantage of its services. They offer a proved method of making the attainment of success easier.

LINCOLN ALLIANCE BANK AND
TRUST COMPANY

Among the most select social gatherings of the season, has been the series of Saturday night poker parties sponsored by Chi Epsilon Phi Fraternity, situated in the aristocratic heart of Ruffle Shirt Ward.

The Chi Ep brothers have always prided themselves on knowing the "why and wherefor" of everything and these friendly little card games, sponsored in the small hours of the morning (for the convenience of those who have dates earlier in the evening) have been no exception to the standards of Emily Post. And then, what's a few dollars and refreshments between brothers?

Alarmed at their success in wrestling, the Chi Betas have instituted devotional exercises.

All Freshmen are led past loving cups, plaques, and M sweaters at least once a day, and are given ample time for reflection upon the subject: How to win honor for good old Chi Beta Kappa. It is hoped that by this method the Betas will make the Wrestling Squad next year.

The brotherhood is sincerely grateful to Mr. George E. Davis for this clever little political device which rests upon the simple basis of psychology. The only complaints registered thus far, are from the Chi Deltas who holler across the street "So's your old man."

The Chi Delt boys like to stroll—stray. They are a playful lot, and have a light burning at the foot of the stone stairway leading to their house, so as to guide the boys to the home port in case of heavy weather—(which is often). Those Fraternity Boys!

Smith and Sammy,

Bill Taft otherwise known as Lord Beaverbrook, and Kappy often engage in friendly debates preceding breakfast, down in the Cafeteria. "There's nothing like argumentation to develop one's appetite" Kappy insists! "Of course Bill doesn't have to develop his appetite any, but he works best when encouraged".

Both Bill and Kappy agree that washing at home without a towel is far superior to lake bathing.
