LEAD INNOVATION AND SPEARHEAD CHANGE

Online Master of Science in Organizational Leadership and Innovation

Analyze and identify an organization's ability to innovate and evolve. With technology advances and a growing set of tools, gain the expertise to lead in technology-driven and innovative contexts and the related changes in organizations. The curriculum includes futuristic and leadership-oriented courses that leverage faculty expertise in organizational leadership, innovation, technology, and strategy development.

Students learn to foresee emerging technologies and innovations and develop strategies to capitalize on invaluable foresight. Graduates develop leadership skills and the ability to create innovative work cultures and guide creative individuals. This program prepares students to build and lead innovative organizations.

PASSIONS

Organizational Leadership and Innovation, MS

Rochester Institute of Technology

From the Director

“Leaders play a critical role in creating a culture of innovation and establishing a culture of collaboration. Leading a cutting-edge team requires a different mindset and skills than in traditional contexts. Our students learn to embrace these differences and encourage change agents.”

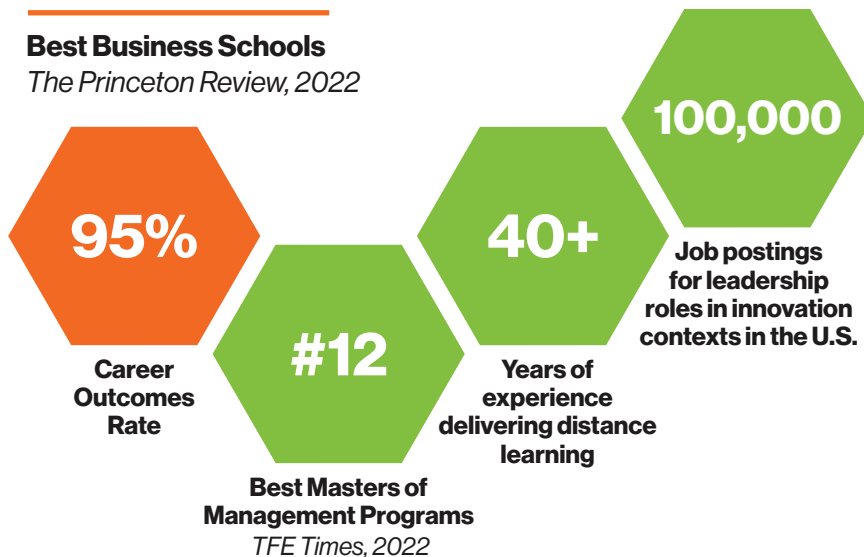

Malar Hirudayaraj, Ph.D.
