# Computing Admission Requirements

# The admission requirements for Computing, based on the curriculum, are listed below.

- Must cover Math and one science at secondary high school.
- Preferred sciences are Physics or Chemistry.
- Note: achieving the minimum requirements doesn't guarantee direct admission to the program. Your scores in RIT placement test will be taken into consideration.
- Students who fail to meet Math/Science competency requirements will be asked to do foundation courses within the first semester.
- Computing students must appear for Math and physics placement tests prior to course registration.
