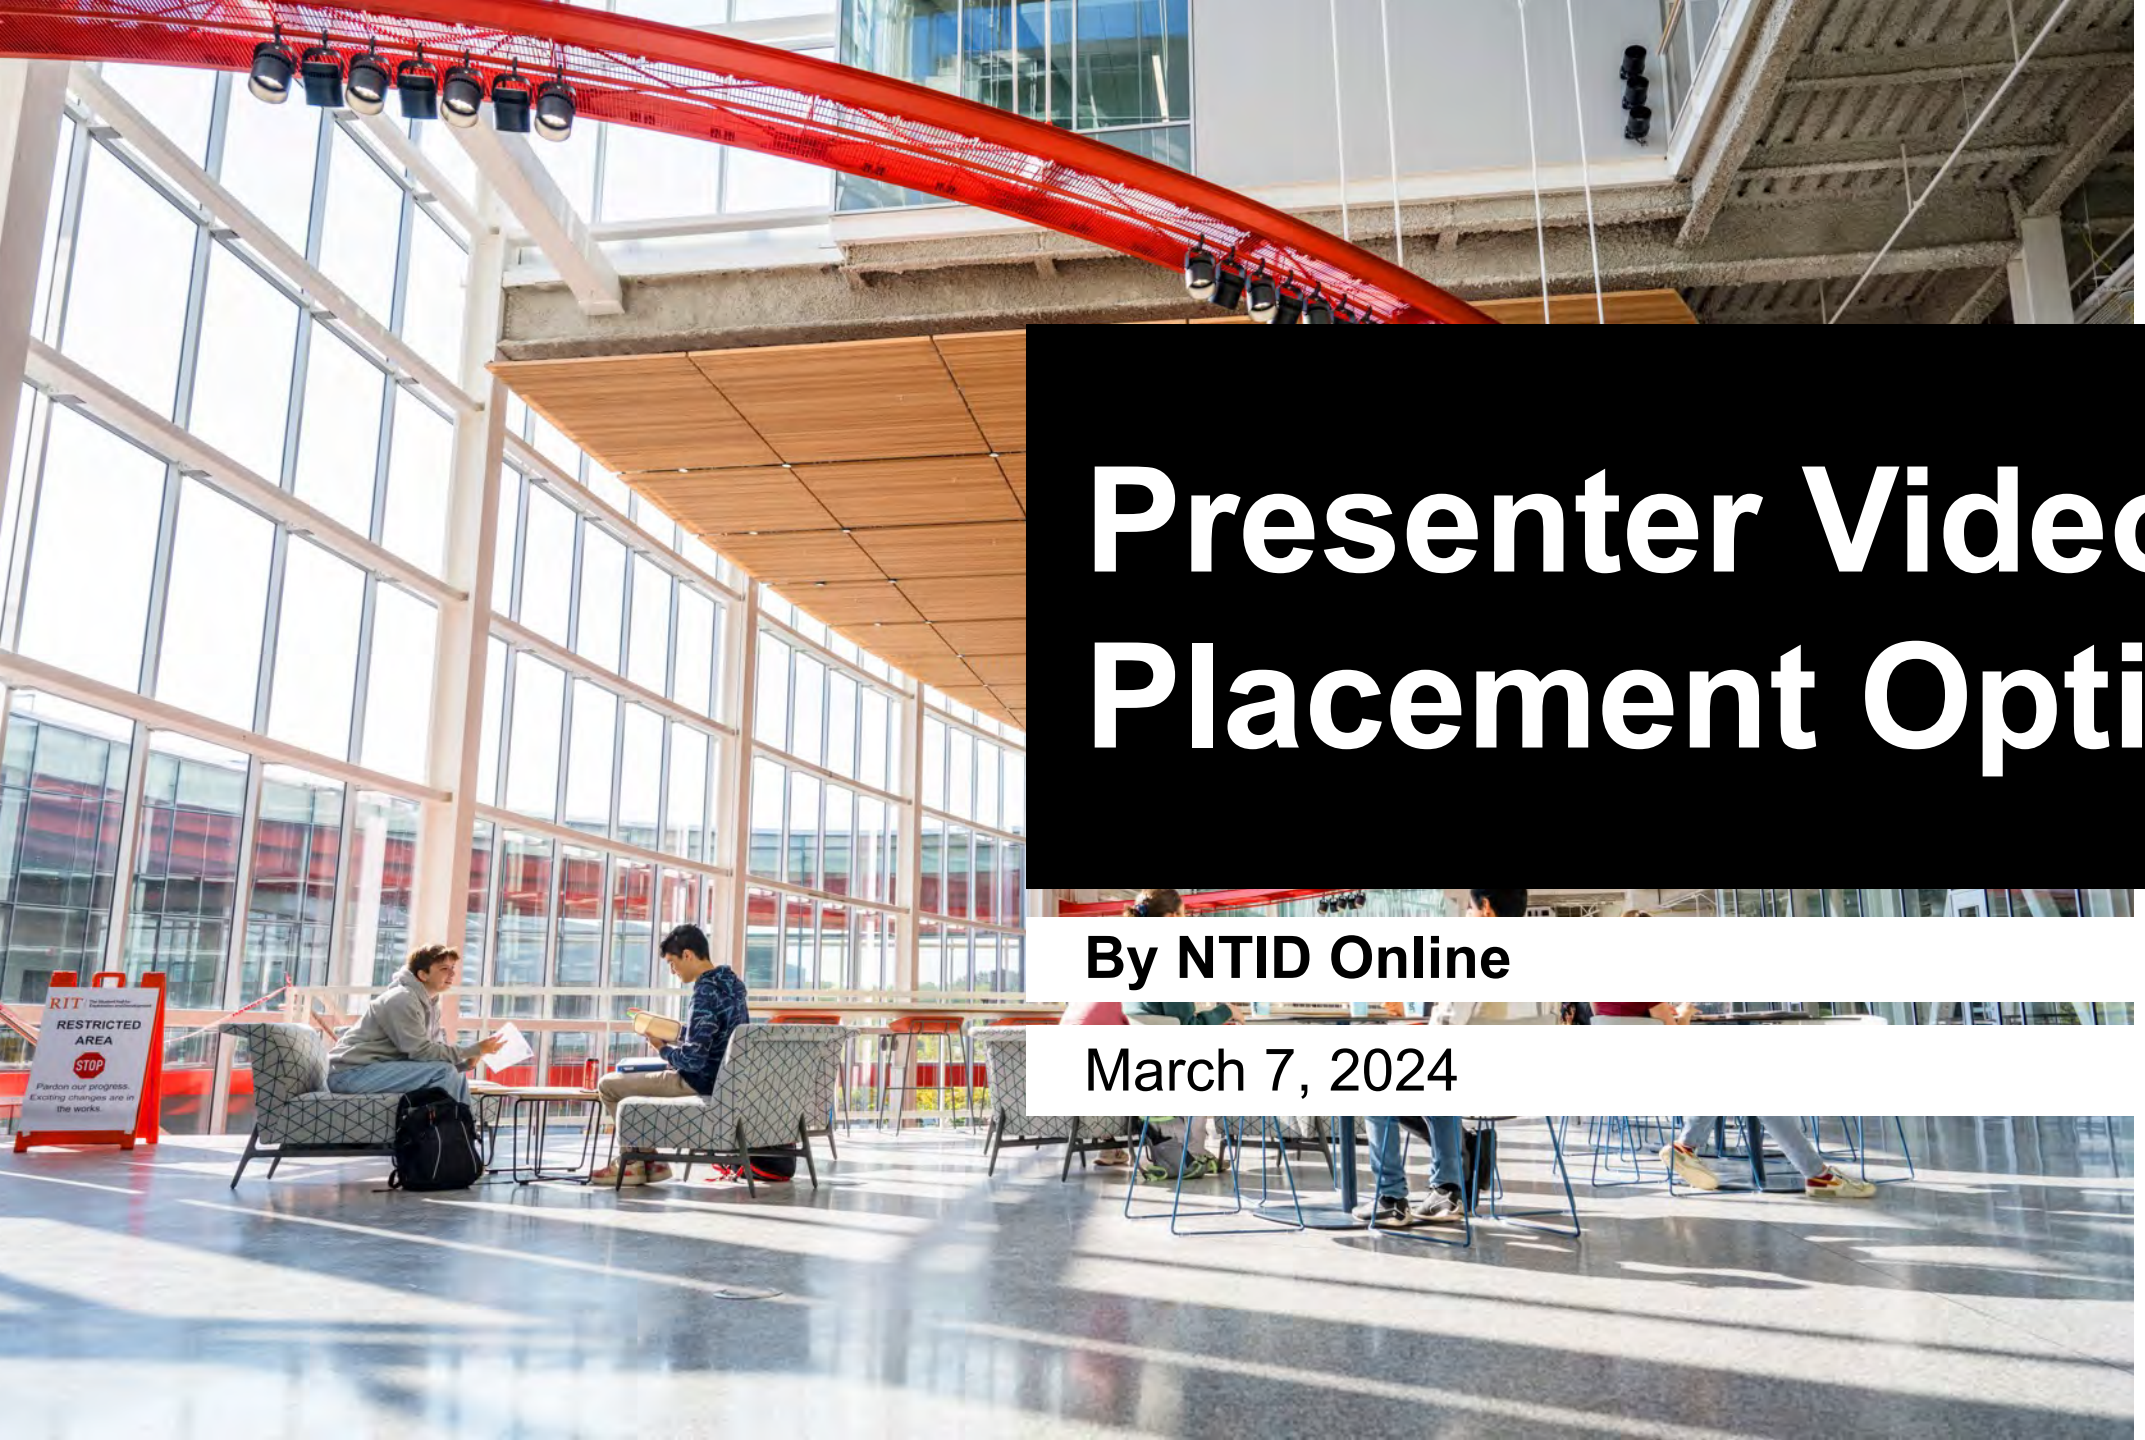
RIT



Presenter Video Placement Options

By NTID Online

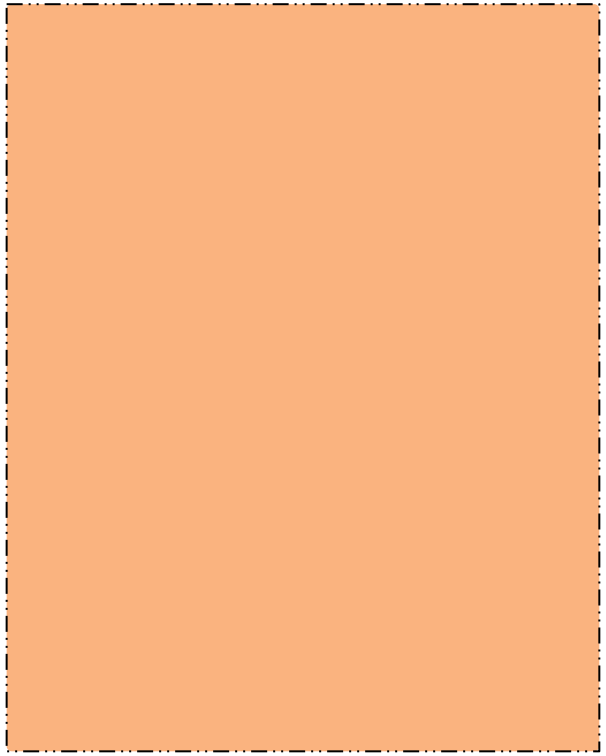
March 7, 2024

Guideline:

- **Consider the following factors when selecting the best presenter placement within online course videos**
  - Complexity of the content
  - Provision of captioning and its placement in suitable positions
  - Desired level of presenter interaction
  - Clothing and background that contrasts with the presenter's skin tone

Option 1: Small Presenter Box

- Ideal for displaying complex content alongside a compact presenter video on the right.
- Captions can be added below the content area
- Use this format for complex content with heavy text or visuals

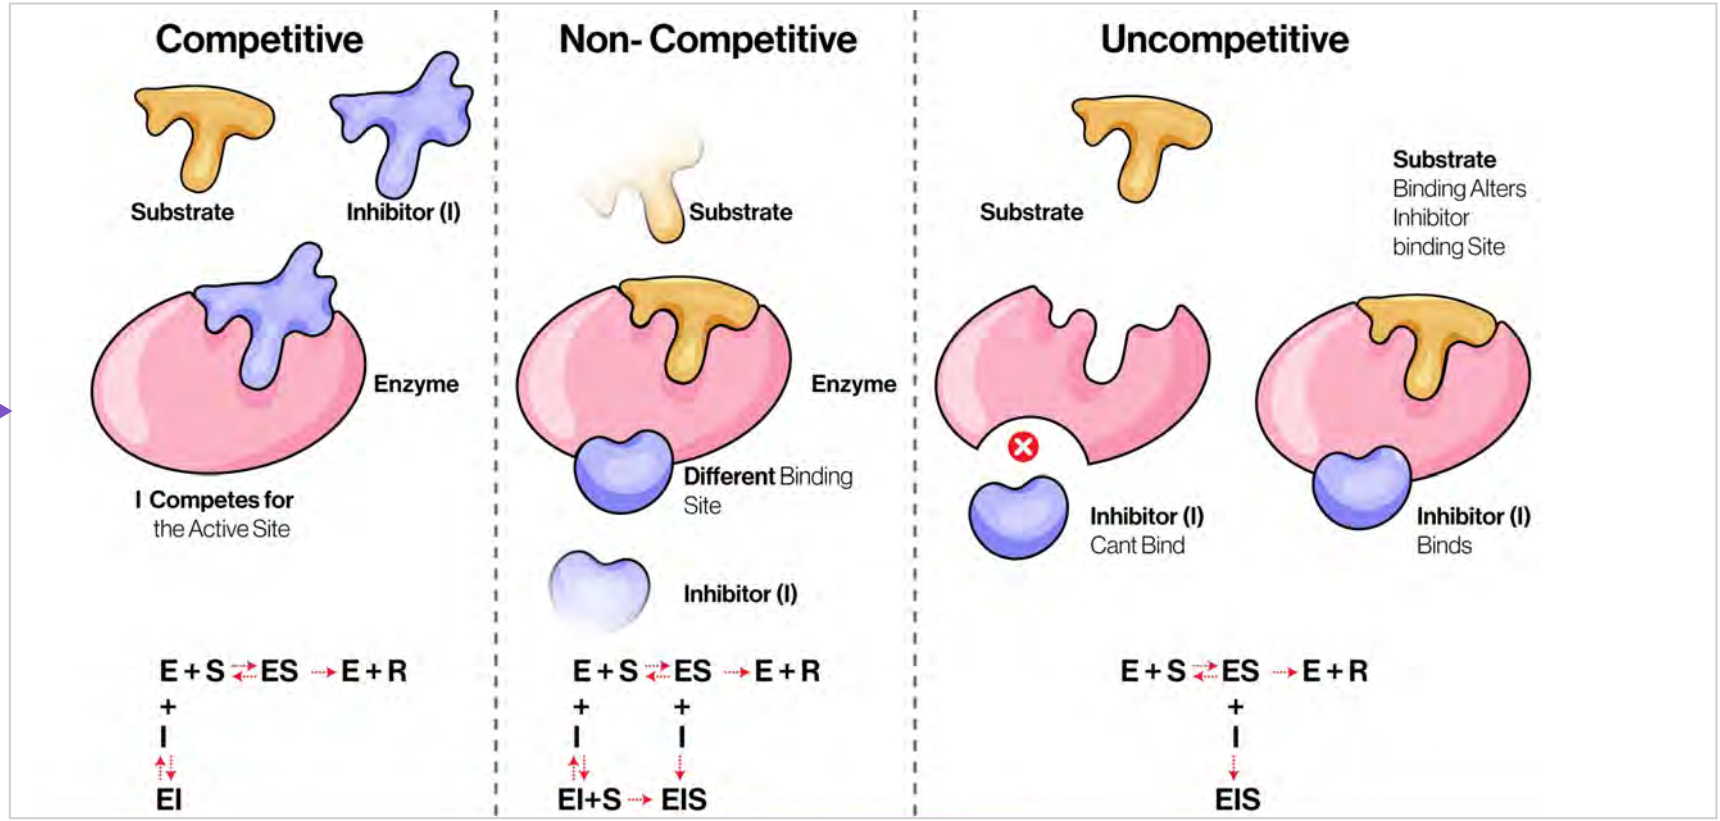


Caption Area

Enzyme Inhibition

Place the Title text here

Place the presenter's video here

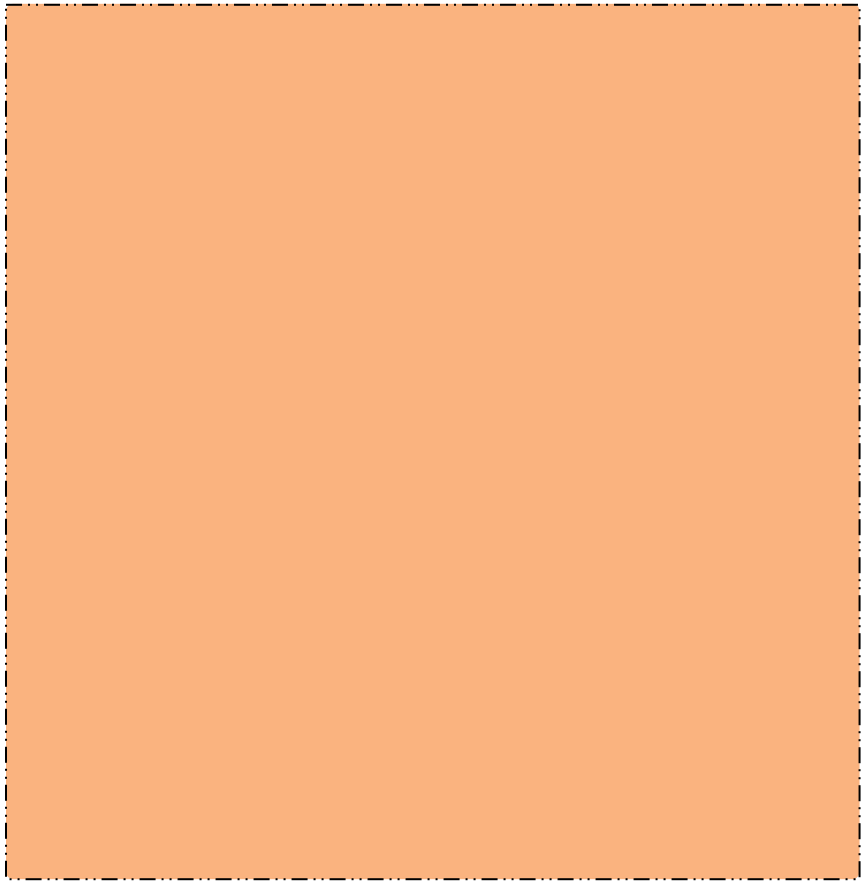


Place the Content within this border here

An enzyme inhibitor is a molecule that binds to an enzyme and blocks its activity.

Option 2: Medium Portrait Presenter

- Presenter occupies a medium-sized portrait box (right side).
- Shows presenter from head to waist while maintaining a wider content area on the left.
- Best for bullet point content.



Caption Area

Encryption

Place the Title text here

Place the presenter's video here

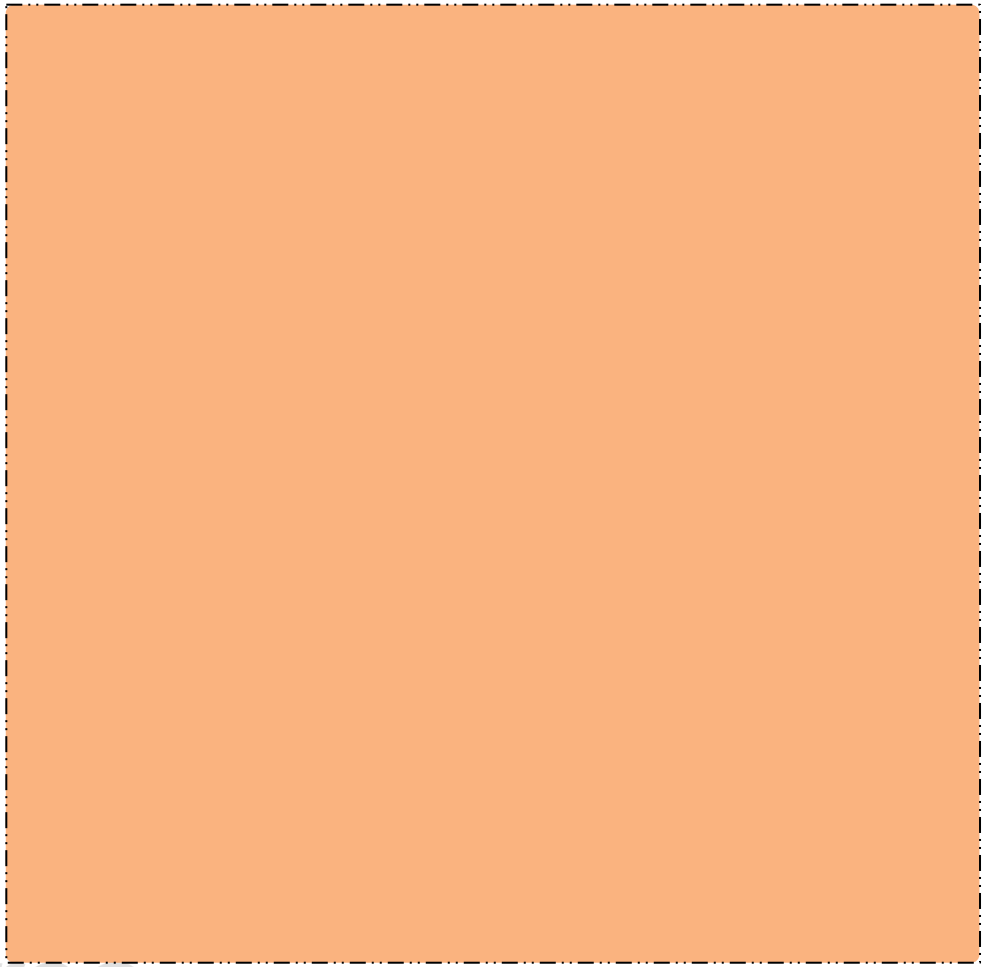
- Encryption -- is a method of "scrambling" data
- before transmitting it onto the Internet.
- Public Key Encryption Technique
- Digital signature – for authentication

Place the Content within this border here

Before we can discuss encryption, please read the content on the left side.

Option 3: Large Portrait Presenter

- Large portrait view of the presenter dominates the right side of the frame.
- Ideal for balancing presenter visibility with content display without captions.
- Adjust the bottom border to accommodate captions if required

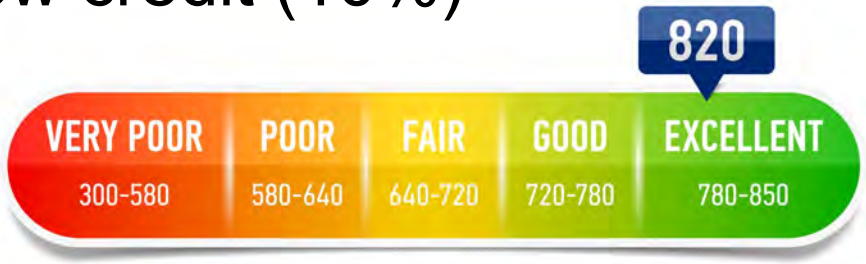


Place the Title text here

Monitor Your Credit Score

Place the presenter's video here

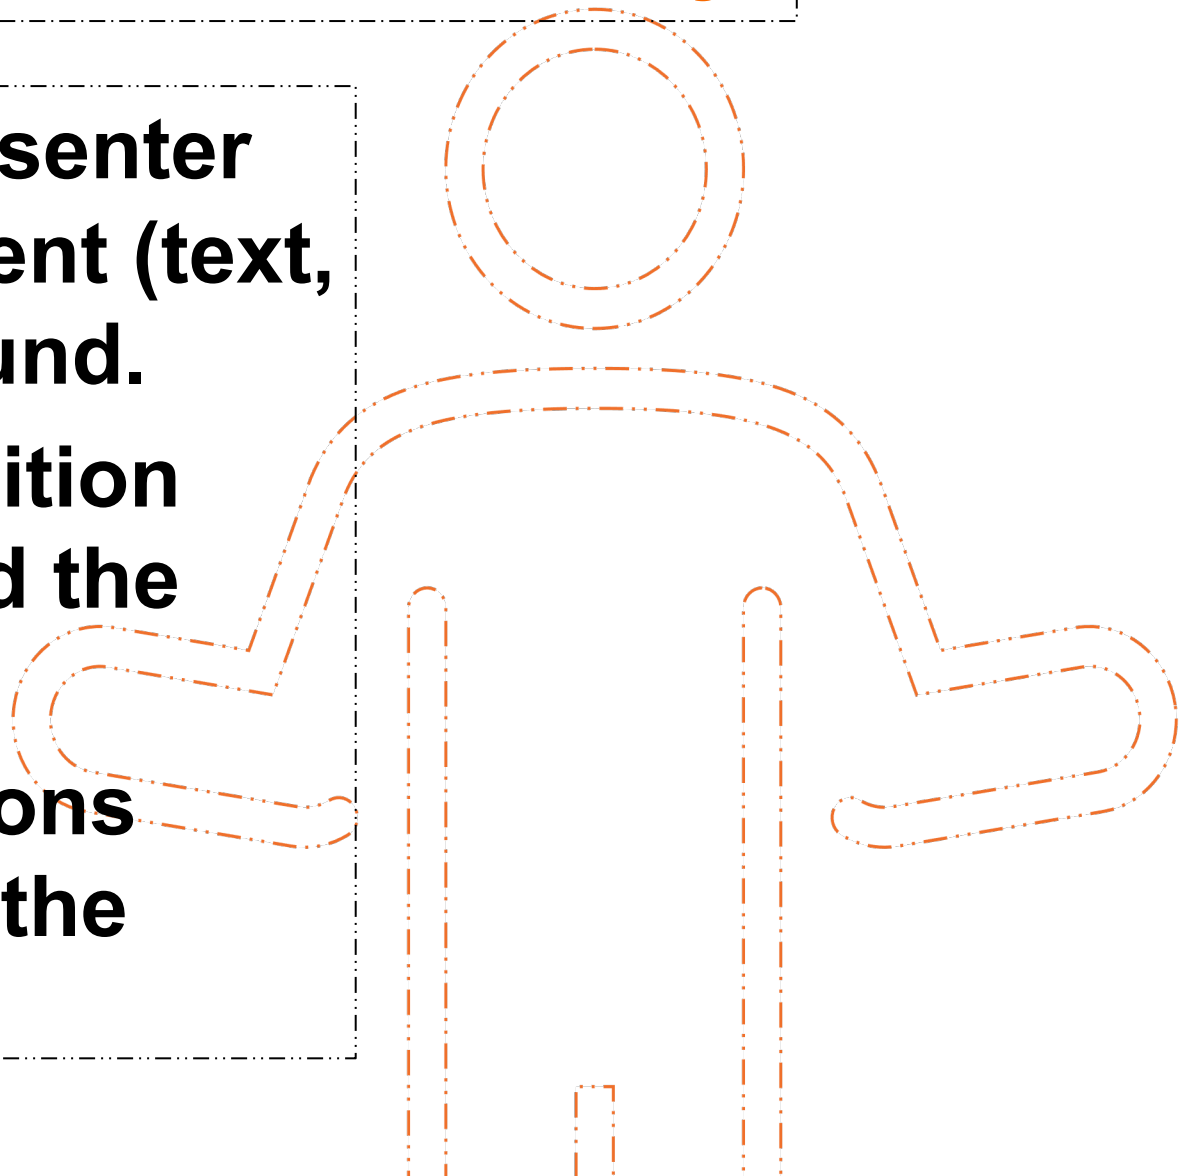
- **Factors that determine your FICO score include:**
  - Payment history (35%)
  - Amounts owed (30%)
  - Length of credit history (15%)
  - Credit mix (10%)
  - New credit (10%)



Place the Content within this border here

Option 4: Transparent Presenter Overlay

- Special effects with the presenter in the foreground and content (text, slides, etc.) in the background.
- Creates a dynamic composition with breathing room around the frame.
- Ideal for engaging interactions between the presenter and the content.



Example 1

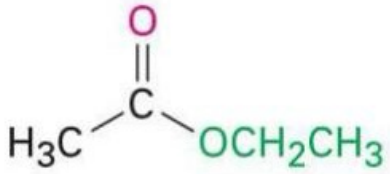
Place the Title text here

Carboxylic Acid Derivatives

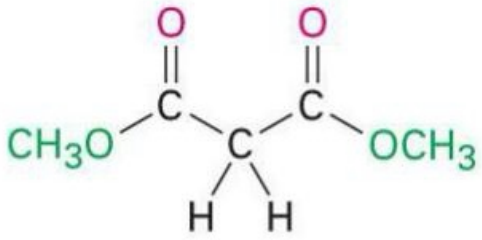
To put a transparent video of a presenter here, you need software editing.

Esters, RCO_2R'

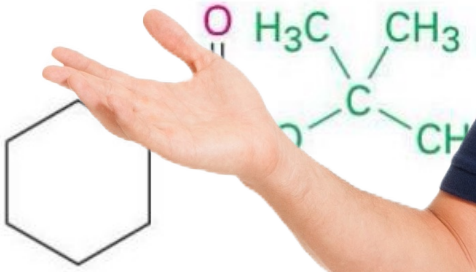
- Esters are named by first identifying the alkyl group attached to the oxygen and then the carboxylic acid with the *–ic acid* ending replaced by *-ate*



Ethyl acetate



Dimethyl malonate



***tert*-Butyl cyclohexa… carboxylate**

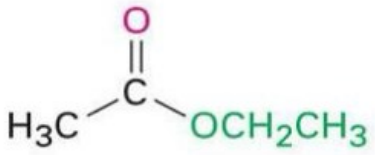
Place the Content behind the presenter here

This works best for media platforms such as Panopto that provide the option of adding captions below videos.

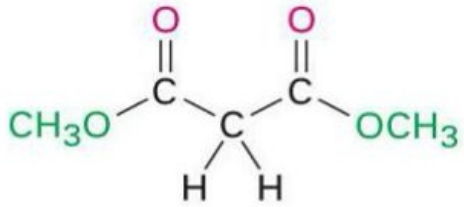
Carboxylic Acid Derivatives

Esters, RCO_2R'

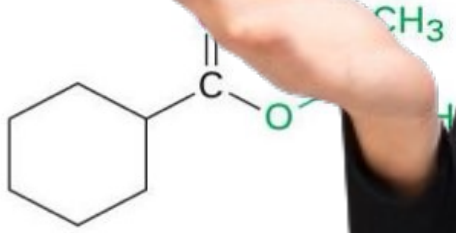
- Esters are named by first identifying the alkyl group attached to the oxygen and then the carboxylic acid with the *–ic acid* ending replaced by *-ate*



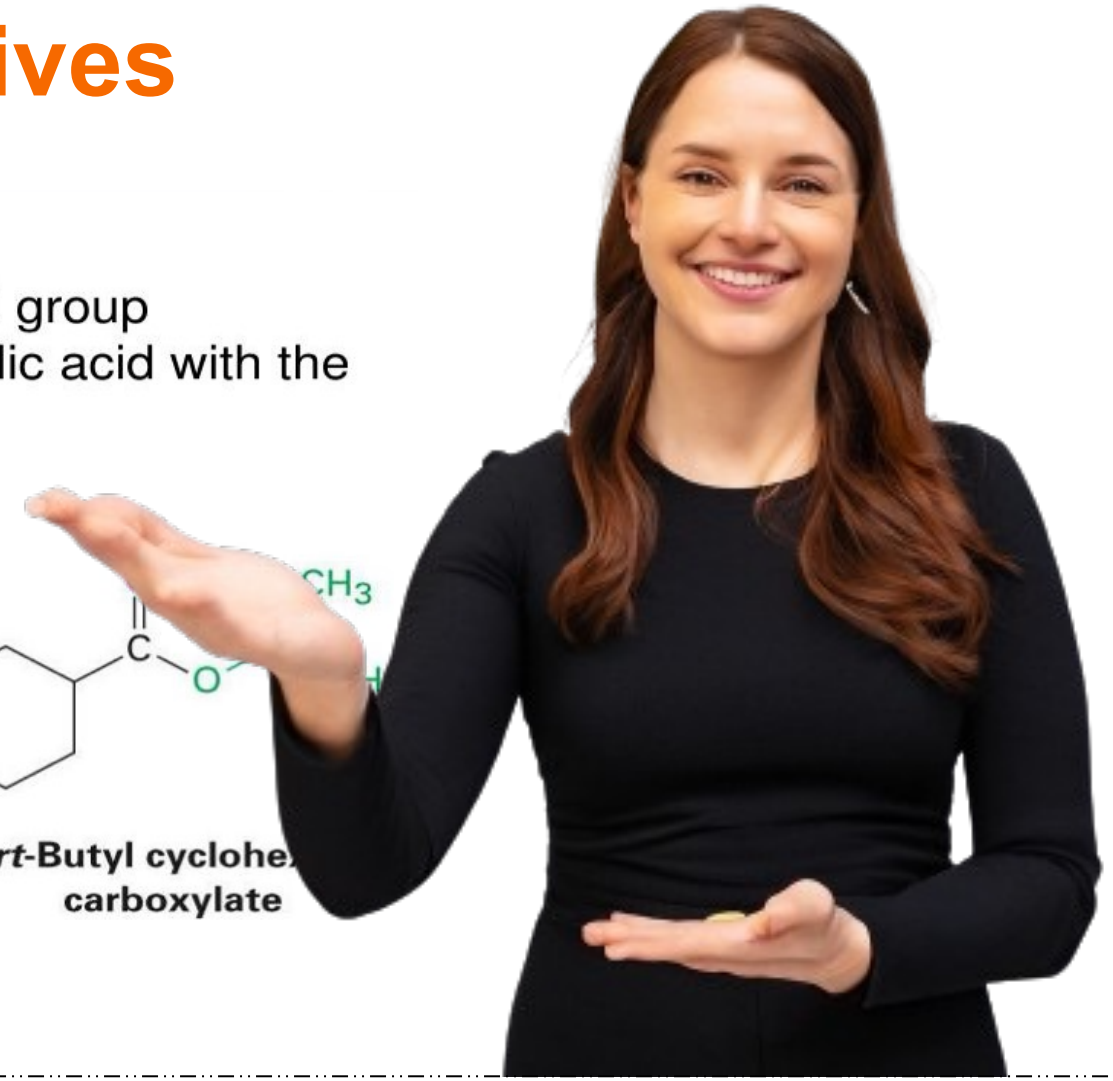
Ethyl acetate



Dimethyl malonate



tert-Butyl cyclohe
carboxylate



Clear the bottom portion of the screen for captioning

Before we can discuss encryption, please read the content on the left side.

Option 6: Side-by-Side

- Content and presenter video displayed side-by-side.
- Make the slide take up 50 – 60% of the screen and the video take up the other remaining.
- Ideal for the standard 4:3 slide that fits half of the the screen.

Definition of Key Social Media Roles

- Social Media Community Manager Versus Social Media Manager
- Social media community manager.
- Differences in the role of social media manager and social media community manager. .
