

"WE CAN DO ANYTHING"

*All the children reaching out for dreams to find
It's not easy, 'cause the world can be unkind
And you learn that the life we face is bittersweet
All dreams lie beyond defeat.*

*So you give all you've got to reach a dream
Sometimes you wonder why you try
When the road seems long and each step of the way
Makes you doubt the dreams you hold so high.
We'll be hand in hand, together you and I
We can do anything if we try.*

*I hear voices telling me I'll fail this time
All too often, those voices are mine
Take my hand so that if I fall along the way
Help me up again I pray.*

*So you give all you've got to reach a dream
Sometimes you wonder why you try
When the road seems long and each step of the way
Makes you doubt the dreams you hold so high.
We'll be hand in hand, together we will try
We can do anything you and I.*

*The world turns round, time rushes by
Don't let your dreams slip away
Look by your side, I will be there
And with our faith we'll make a brighter day.
We'll be hand in hand, together you and I
We can do anything if we try.*
