

Study Abroad For Engineering Technology Students

4 Reasons Engineering Technology students should study abroad

Learn how to develop innovative solutions for global customers and international markets.

Gain insight into how engineering and technology issues are approached and solved throughout the world.

Develop professional and cross-cultural skills that will make you stand out when applying for jobs, graduate schools or research programs.

Explore the unexpected, take on new challenges and add a global perspective to what you learn in the classroom.

Featured Programs

Automotive Electronics in Germany

Mittweida, Germany

RIT Faculty-Led Program
Spring Course/Summer Travel

Gain a new perspective on automotive electronics in Germany - a world leader in automotive innovation and manufacturing. You'll enroll in a spring course at RIT and travel to Germany for two weeks in early summer to learn about automotive manufacturing methods and visit German automotive facilities. *No language requirements.*

Universidad Pontificia Comillas

Madrid, Spain

Exchange Program
Spring semester or summer

Live and study in Spain without missing technical courses required for your degree. Coursework available in industrial engineering (including mechanical, electrical, and electronic) and telecommunications engineering. Many course offerings are taught in English with additional options taught in Spanish. *Four semesters of college-level Spanish required to take classes in Spanish.*

Kansas Cushing
CET, Electrical Engineering Technology
Studied in Dublin, Ireland

"My study abroad program helped me find what field I want to go into after college. Visiting renewable energy plants in Ireland opened my eyes to different sustainability options within the tech industry."

When You Should Go

The College of Engineering Technology study abroad pathways identify the optimal timing for semester-long study:

Civil Engineering Tech	4th year, fall
Computer Engineering Tech	3rd year, fall
Electrical Engineering Tech	2nd year, fall
Environmental Sustainability, Health & Safety	4th year, fall
Mechatronics Engineering Tech	2nd year, fall
Mechanical Engineering Tech	3rd year, fall
Packaging Science	4th year fall
Robotics & Manufacturing Engineering Tech	2nd year, spring

However, work with your academic advisor to determine the best timing for you.

Tips

Taking minor, immersion or general education courses abroad gives you more flexibility with program options, locations and length of time abroad.

RIT Education Abroad Travel Grants (\$500-\$1,000) are available for global campus, faculty-led or exchange programs.

Financial aid and study abroad scholarships are available. Ask a study abroad advisor for more details.

Getting Started

1. Learn more at: studyabroad.rit.edu
2. Talk to your [academic advisor](#) about timing and coursework.
3. Explore programs in the RIT Study Sbroad Compass rit.edu/global/compass-search-programs-apply
4. Make an appointment with an RIT study abroad advisor: www.rit.edu/global/advisormeeeting
